If requested by the licensee, the licensee may also designate a physician for an independent medical examination. This request shall not constitute an admission of any allegation relating to such cause. All objections by the licensee shall be waived as to admissibility of the examining physician's testimony or examination reports at any Board proceeding on the grounds that they constitute a privileged communication. The Olbilil Era Kelulau finds that cases arise which necessitate emergency action to help mentally ill persons who have become a danger to themselves or others. § 1218. Discharge prohibitions.

(a) No person shall discharge or cause to be discharged into the public sewer system, the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Palau Environmental Quality Protection Board that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving waters, or can otherwise endanger life, limb, public property, or constitute a nuisance;

(1) liquid or vapor having a temperature higher than one hundred thirty degrees Fahrenheit (130E);

(2) any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of 100 mg/1 or containing substances which may solidify;

(3) any waters or wastes containing iron, chromium, copper, zinc and similar objectionable or toxic substances; or wastes requiring chlorine treatment greater than that required by domestic sewage, which is defined for this purpose as 15 mg/liter of chlorine;

(4) any waters or wastes containing phenols or other tastes or odor producing substance, in concentrations exceeding limits established by the TTPI Marine and Fresh Water Quality Standards as necessary, after treatment of the composite sewage, to meet the requirements of the public agencies having jurisdiction for such discharge to the receiving waters;

(6) any waters or wastes having a pH in excess of 10.5.

(7) materials which exert or cause:

(A) unusual concentration of inert suspended solids such as but not limited to fuller's earth, lime slurries, and lime residues, or of dissolved solids such as, but not limited to, sodium chloride and sodium sulfate;

(B) excessive discoloration such as, but not limited to, dye wastes and vegetable tanning solutions;

(D) unusual volume of flow or concentration of wastes constituting sludge;

(8) wastes removed from septic tanks and cesspools;

(9) waters or wastes containing substances which are not amenable to treatment reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the discharge requirements established by the government.

(b) In forming its opinion as to acceptability of these wastes, the Palau Environmental Quality Protection Board shall give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors.

§ 1219. Disposal of waste to public sanitary sewers.

(a) If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in sections 1218 and 1219 of this chapter, and which in the judgment of the Palau Environmental Quality Protection Board may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Board may:

(1) reject the wastes;

(2) require pre-treatment to an acceptable condition before discharge to the public sewers;

(3) require control over the quantities and rates of discharge;

(4) require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges.

(b) If the Board permits the pre-treatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Board and subject to the requirements of all applicable codes, ordinances and law. Wastes removed from septic tanks and cesspools may be discharged to the public sewers only under the following conditions:

(1) the supervisor of the sewage treatment plants is notified, and it is done in the presence of his representative;

(2) it is done at times and places designated by the Palau Environmental Quality Protection Board.

In the event that no special manhole has been required, the control manhole is the public sewer from the point at which the building sewer is connected. § 2102. Definitions.

In this chapter:

(a) "Adulterated" shall apply to any carcass, part thereof, meat or meat food product under one or more of the following circumstances:

(1) if it bears or contains any poisonous or deleterious substance which may render it injurious to health; but, in case the substance is not an added substance, such article shall not be considered adulterated under this paragraph if the quantity of such substance in or on such article does not ordinarily render it injurious to health;

(2) if it:

(A) bears or contains (by reason of administration of any substance to the live animal or otherwise) any added poisonous or added deleterious substance (other than one which is a pesticide chemical in or on a raw agricultural commodity, a food additive, a color additive or antibiotic or other medication) which may, in the judgment of the Chief make such article unfit for human food;

(B) is, in whole or in part, a raw agricultural commodity, and such commodity bears or contains a pesticide chemical which is unsafe as defined by the Chief;

(C) bears or contains any food additive which is unsafe as defined by the Chief;

(D) bears or contains any color additive which is unsafe as defined by the Chief; provided, that an article which is not adulterated under subparagraphs (B), (C) or this subparagraph shall nevertheless be deemed adulterated if use of the pesticide chemical, food additive, color additive or antibiotic in, or on such article is prohibited by regulations of the Chief in establishments at which inspection is maintained under this chapter;

(3) if it consists in whole or in part of any filthy, putrid, or decomposed substance or is for any other reason unsound, unhealthful, unwholesome, or otherwise unfit for human food;

(4) if it has been prepared, packed, or held under unsanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health;

(5) if it is, in whole or in part, the product of an animal which has died otherwise than by slaughter;

(6) if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health;

(7) if it has been intentionally subjected to radiation, unless the use of the radiation was in conformity with a regulation or exemption in effect pursuant to regulations issued by the Chief;

(8) if any valuable constituent has been in whole or in part omitted or abstracted therefrom; or if any substance has been substituted, wholly or in part therefor; or if damage or inferiority has been concealed in any manner; or if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is; or

(9) if it is margarine containing animal fat and any of the raw material used therein consists in whole or in part of any filthy, putrid, or decomposed substance.

(b) "animal food manufacturer" means any person, firm, or corporation engaged in the business of manufacturing or processing animal food derived wholly or in part from carcasses, or parts or products of the carcasses, of cattle, sheep, swine, or goats.

(c) "capable of use as human food" shall apply to any carcass, or part or product of a carcass, of any animal, unless it is denatured or otherwise identified as required by regulations prescribed by the Chief to deter its use as human food, or it is naturally inedible by humans.

(d) "Chief" means the Chief of the Division of Agriculture or his designated representative.

(e) "export" means commerce from the Republic to any foreign country, including the United States and its territories and possessions.

(f) "firm" means any partnership, association, or other unincorporated business organization.

(g) "label" means a display of written, printed, or graphic matter upon the immediate container (not including package liners) of any article.

(h) "labeling" means all labels and other written, printed, or graphic matter upon any article or any of its containers or wrappers, or accompanying such article.

(i) "meat broker" means any person, firm, or corporation engaged in the business of buying or selling carcasses, parts of carcasses, meat, or meat food products of cattle, sheep, swine, or goats, on commission, or otherwise negotiating purchases or sales of such articles other than for his own account or as an employee of another person, firm or corporation.

(j) "meat food product" means any product capable of use as human food which is made wholly or in part from any meat or other portion of the carcass of any cattle, sheep, swine, or goats. The term does not include products which contain meat or other portions of such carcasses only in a relatively small proportion or historically have not been considered by consumers as products of the meat food industry, and which are exempted from definition as a meat food product by the Chief under such conditions as he may prescribe to assure that the meat or other portions of such carcasses contained in such product are not adulterated and that such products are not represented as meat food products.

(k) "misbranded" shall apply to any carcass, part thereof, meat or meat food product under one or more of the following circumstances:

(1) if its labeling is false or misleading in any particular;

(2) if it is offered for sale under the name of another food;

(3) if it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the word "imitation" and immediately thereafter, the name of the food imitated;

(4) if its container is so made, formed, or filled as to be misleading;

(5) if it is in a package or other container, unless it bears a label showing:

(A) the name and place of business of the manufacturer, packer, or distributor; and

(B) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count;

provided that under subparagraph (B), reasonable variations may be permitted, and exemptions as to small packages may be established, by regulations prescribed by the Chief;

(6) if any word, statement, or other information required by or under authority of this chapter to appear on the label or other labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices, in the labeling) and in such terms as to render it likely to be used and understood by the ordinary individual under customary conditions of purchase and use;

(7) if it purports to be or is represented as a food for which a definition and standard of identity or composition has been prescribed by regulations of the Chief under section 2108 of this title unless:

(A) it conforms to such definition and standard, and

(B) its label bears the name of the food specified in the definition and standard and, insofar as may be required by such regulations, the common names of optional ingredients (other than spices, flavoring, and coloring) present in such food;

(8) if it purports to be or is represented as a food for which a standard or standards of fill of container have been prescribed by regulations of the Chief under paragraph (7) of this subsection, and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard;

(9) if it is not subject to the provisions of paragraph (7) of this subsection, unless its label bears:

(A) the common or usual name of the food, if any there be, and

(B) in case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavorings, and colorings may, when authorized by the Chief, be designated as spices, flavorings, and colorings without naming each; provided that, to the extent that compliance with the requirements of subparagraph (B) of this paragraph is impracticable, or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the Chief;

(10) if it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the Chief, after consultation with the Director for Public Health, determines to be, and by regulations prescribes as, necessary in order fully to inform purchasers as to its value for such uses;

(11) if it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; provided that, to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the Chief; or

(12) if it fails to bear the inspection legend directly thereon or on its container as the Chief may by regulations prescribe, and, unrestricted by any of the foregoing, such information as the Chief may require in such regulations to assure that it will not have false or misleading labeling and that the public will be informed of the manner of handling required to maintain the article in a wholesome condition.

(l) "Official certificate" means any certificate prescribed by regulations of the Chief for issuance by an inspector or other person performing official functions under this chapter.

(m) "Official device" means any device prescribed or authorized by the Chief for use in applying any official mark.

Such reports and answers shall be made under oath, or otherwise, as the Registrar of Corporations may prescribe, and shall be filed with the Registrar of Corporations within such reasonable period as he may prescribe, unless additional time be granted in any case by such Registrar.

(A) For the purposes of this chapter, the Attorney General or his designated representatives shall at all reasonable times have access to, for the purpose of examination, and the right to copy, any documentary evidence of any person, firm, or corporation being investigated or proceeded against, and may require by subpoena the attendance and testimony of witnesses and the production of all documentary evidence of any person, firm, or corporation relating to any matter under investigation. The Attorney General may sign subpoenas and may administer oaths and affirmations, examine witnesses, and receive evidence.

(v) Witnesses summoned before the Attorney General shall be paid the same fees and mileage that are paid witnesses in the courts of the Republic, and witnesses whose depositions are taken and the persons taking the same shall severally be entitled to the same fees as are paid for like services in such courts.

(vi) No person, firm, or corporation shall be excused from attending and testifying or from producing books, papers, schedules of charges, contracts, agreements, or other documentary evidence before the Attorney General or in obedience to the subpoena of the Attorney General whether such subpoena be signed or issued by him or his delegate, or in any cause or proceeding, criminal or otherwise, based upon or growing out of any alleged violation of this chapter, or of any amendments thereto, on the ground or for the reason that the testimony or evidence, documentary or otherwise, required of him or it may tend to incriminate him or it, or subject him or it to a penalty of forfeiture; but no person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which he is compelled, after having claimed his privilege against self-incrimination, to testify or produce evidence, documentary or otherwise, except that any person so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

(vii) Any person, firm, or corporation that shall neglect or refuse to attend and testify or to answer any lawful inquiry, or to produce documentary evidence, if it is in his or its power to do so in obedience to the subpoena or lawful requirement of the Attorney General, shall be guilty of an offense and, upon conviction thereof, shall be punished by a fine of not less than one thousand dollars (\$1,000) nor more than five thousand dollars (\$5,000), or by imprisonment for not more than one (1) year, or both.

(B) Any person, firm, or corporation that shall wilfully make, or cause to be made, any false entry or statement of fact in any report required to be made under this chapter, or that shall wilfully make, or cause to be made, any false entry in any account, record, or memorandum kept by a person, firm, or corporation subject to this chapter, or that shall wilfully neglect or fail to make or cause to be made, full, true, and correct entries in such accounts, records, or memoranda, of all facts and transactions appertaining to the business of such person, firm, or corporation, or that shall wilfully remove out of the jurisdiction of the Republic, or wilfully mutilate, alter, or by any other means falsify, any documentary evidence of any such person, firm, or corporation, or that shall wilfully refuse to submit to the Attorney General or to any of his authorized agents, for the purpose of inspection and taking copies, any documentary evidence of any such person, firm, or corporation in his possession or within his control, shall be deemed guilty of an offense and shall be subject, upon conviction, to a fine of not less than one thousand dollars (\$1,000), nor more than five thousand dollars (\$5,000), or to imprisonment for a term of not more than three (3) years, or both.

(C) If any person, firm, or corporation required by this chapter to file any annual or special report shall fail to do so within the time fixed by the Registrar of Corporations for filing the same, and such failure shall continue for thirty (30) days after notice of such default, such person, firm, or corporation shall forfeit to the Republic the sum of one hundred dollars (\$100) for each and every day of the continuance of such failure, which forfeiture shall be payable into the National Treasury and shall be recoverable in a civil suit in the name of the Republic brought in the Trial Division of the Supreme Court. It shall be the duty of the Attorney General to prosecute for the recovery of such forfeitures.

(b) Any officer or employee of the national government who shall make public any information obtained by the Registrar of Corporations without his authority, unless directed by a court, shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine not exceeding five thousand dollars (\$5,000), or by imprisonment not exceeding one (1) year, or both, in the discretion of the court.

§ 3110. Schedule IV.

§ 3111. Criteria for classification under Schedule V.

§ 3112. Schedule V.

§ 3113. Annual revision and republication of schedules.

§ 3101. Reports and recommendations by Director to Olbil Era Kelulau; amendment of schedule by Olbil Era Kelulau.

(a) Annually, upon the convening of the year's first session of the Olbil Era Kelulau, the Director shall report to the Olbil Era Kelulau the effects of the implementation of this division in relation to the problems of drug abuse in the Republic, and shall recommend to the Olbil Era Kelulau any additions, deletions or revisions in the schedules of substances enumerated in sections 3104, 3106, 3108, 3110 and 3112 of this title, and any other recommendations which he deems necessary. The Director shall not recommend any additions, deletions or revisions in such schedules until after notice and an opportunity for a hearing is afforded all interested parties, except such hearing shall not be required if official notice has been received that the substance has been added, deleted or rescheduled as a controlled substance under federal law. In making a determination regarding a substance, the Director shall assess the degree of danger or probable danger of the substance by considering the following:

(1) the actual or probable abuse of the substance, including:

(A) its history and current pattern of abuse;

(B) the scope, duration and significance of abuse; and

(C) a judgment of the degree of actual or probable detriment which may result from the abuse of the substance.

(2) the biomedical hazard of the substance, including:

(A) its pharmacology: the effects and modifiers of effects of the substance;

(B) its toxicology: the acute and chronic toxicity, interaction with other substances whether controlled or not and liability to psychic or physiological dependence;

(C) risk to public health and particular susceptibility of segments of the population; and

(D) existence of therapeutic alternatives for substances which are or may be used for medical purposes.

(3) a judgment of the probable physical and social impact of widespread abuse of the substance.

(4) whether the substance is an immediate precursor of a substance already controlled under this division.

(5) the current state of scientific knowledge regarding the substance.

(b) After considering the factors enumerated above, the Director shall make a recommendation to the Olbil Era Kelulau, specifying to what schedule the substance shall be added, deleted or rescheduled if it finds that the substance has a degree of danger or probable danger. The Director may make such recommendation to the Olbil Era Kelulau prior to the submission of his annual report, in which case the Director shall publish and give notice to the public of such recommendation.

(c) The Olbil Era Kelulau has the sole authority to add, delete, or reschedule all substances enumerated in the schedules in sections 3104, 3106, 3108, 3110 and 3112 of this title.

(d) If the Olbiil Era Kelulau designates a substance as an immediate precursor, substances which are precursors of the controlled precursor shall not be subject to control solely because they are precursors of the controlled precursor.

(e) If a substance is added, deleted or rescheduled as a controlled substance under federal law and notice of the designation is given to the Director, the Director shall recommend that a corresponding change in the law of the Republic be made by the Olbiil Era Kelulau, unless the Director objects to the change. In that case, the Director shall publish the reasons for objection and afford all interested parties an opportunity to be heard. Following the hearing, the Director shall announce his decision and shall notify the Olbiil Era Kelulau in writing of the change in federal law or regulations and of the Director's recommendations.

§ 5302. Findings and intent.

(a) The Congress of Micronesia finds and declares that:

(1) Public Law 93-288, enacted by the Ninety-Third Congress of the United States, provides for assistance to the Trust Territory in the event an emergency or a major disaster should strike the Territory, as determined by the President of the United States;

(2) emergency and disasters may include the loss of life, human suffering, loss of income and property damage resulting from typhoons, tornadoes, storms, floods, high waters, wind-driven waters, tidal waves, earthquakes, droughts, fires and other catastrophes;

(3) due, however, to the scattering of small islands and small island groups throughout the three million square miles of ocean within the boundaries of the Trust Territory, disasters frequently occur which may be of insufficient magnitude to warrant being designated by the President as an "emergency" or a "major disaster" as defined within the provisions of Public Law 93-288, and may therefore, be of insufficient severity to warrant direct assistance from the federal government to the Trust Territory; and

(4) because such disasters disrupt the normal functions of the government and the communities, and adversely affect individual persons and families with great severity, special measures are required by the government of the Trust Territory to assist the people of the Trust Territory and to expedite the rendering of aid, assistance and emergency welfare services and the reconstruction and rehabilitation of devastated areas.

(b) It is therefore the intent of the Congress of Micronesia by this chapter to:

(1) establish and provide for an orderly and continuing program of assistance by the government of the Trust Territory to alleviate the suffering and damage which may result from disasters outlined above, and which may not be of sufficient severity or scope to warrant assistance by the United States Government under the provisions of Public Law 93-288;

(2) clarify and strengthen the roles of the High Commissioner, the district administrators and local governments in prevention of, preparation for and response to and recovery from disasters;

(3) provide a disaster management system embodying all aspects of pre-disaster preparedness and post-disaster response;

(4) supplement and augment assistance which may be provided by the federal government to the Trust Territory in the event of an emergency or major disaster declaration by the President pursuant to the provisions of Public Law 93-288; and

(5) authorize and provide for coordination of activities relating to disaster prevention, preparedness, response and recovery by agencies and officers of the Trust Territory, and similar United States, interterritorial and foreign activities in which the Trust Territory and its political subdivisions may participate.

§ 5303. Limitations.

Nothing in this chapter shall be construed to:

(a) interfere with dissemination of news or comments on public affairs; but any communications facility or organization, including but not limited to radio and television stations, wire services, and newspapers, may be required to transmit or print public service messages furnishing information or instructions in connection with a disaster emergency;

(b) affect the jurisdiction or responsibilities of the Trust Territory, district, municipal or local police forces, and fire fighting forces; and units of the armed forces of the United States, or of any personnel thereof, when on active duty;

(c) interfere with the course or conduct of a labor dispute, except that actions otherwise authorized by this chapter may be taken when necessary to forestall or mitigate imminent or existing disasters that pose a danger to public health or safety; or

(d) limit, modify or abridge the authority of the High Commissioner to respond to emergencies or to exercise any other powers vested in him by the laws of the Trust Territory, independent of, or in conjunction with, any provisions of this chapter.

§ 5304. Definitions.

As used in this chapter, unless the context otherwise requires, the following definitions shall apply:

(a) "Disaster" means occurrence or imminent threat of a widespread or severe damage, injury or loss of life or property resulting from any natural or man-made cause, including, but not limited to, typhoons, tornadoes, storms, floods, high water, wind-driven water, tidal wave, earthquake, fire, oil spill or other water contamination requiring emergency action to avert danger or damage, volcanic activity, epidemic, air contamination, blight, drought, infestation or explosion, occurring in any part of the Trust Territory which, in the determination of the High Commissioner, is of sufficient severity and magnitude to warrant assistance by the Trust Territory Government to supplement the efforts and available resources of the political subdivisions thereof and relief organizations in alleviating the damage, loss, hardship or suffering caused thereby, and with respect to which the district administrator of any district in which such catastrophe occurs determines the need for disaster assistance under this chapter.

(b) "Emergency" means any typhoon, tornado, storm, flood, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, drought, fire, explosion or other catastrophe in any part of the Trust Territory which requires federal emergency assistance to supplement Trust Territory and local efforts to save lives and protect property, public health and safety or to avert or lessen the threat of a disaster.

(c) "Major disaster" means any typhoon, tornado, storm, flood, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, drought, fire or other catastrophe in any part of the Trust Territory which, in the determination of the President of the United States, causes damage of sufficient severity and magnitude to warrant major disaster assistance under Public Law 93-288, above and beyond emergency services by the federal government to supplement the efforts and available resources of the Trust Territory Government and its political subdivisions.

(d) "Political subdivision" means any district, municipality, town, village, community or other unit of local government recognized as such by laws or customs of the Trust Territory.

§ 5305. The High Commissioner and disaster emergencies.

(a) The High Commissioner is responsible for meeting the dangers to the Trust Territory and people presented by disasters.

(b) Under this chapter, the High Commissioner may issue executive orders and regulations and amend or rescind them. Executive orders shall have the force and effect of law when promulgated in accordance with the procedures set forth in this chapter. The High Commissioner shall issue regulations as provided by law for the administration and enforcement of this chapter, and such regulations shall have the force and effect of law if they are not in conflict with the express provisions of this chapter or other laws of the Trust Territory.

(c) A disaster emergency shall be declared by executive order of the High Commissioner if he finds a disaster has occurred or that this occurrence or the threat thereof is imminent. The state of disaster emergency shall continue until the High Commissioner finds that the threat or danger has passed or that the disaster has been dealt with to the extent that emergency conditions no longer exist and terminates the state of disaster emergency by executive order, but no state of disaster emergency may continue for longer than thirty (30) days unless renewed by the High Commissioner. The Congress of Micronesia may terminate a state of disaster emergency at any time by joint resolution. Thereupon, the High Commissioner shall issue an executive order promulgating the termination of the state of disaster emergency. An executive order issued under this subsection shall be disseminated promptly by means calculated to bring its contents to the attention of the general public and unless the circumstances attendant upon the disaster so prevent or impede, promptly filed with the Trust Territory disaster control office, the Attorney General's office and the district administrator's office of the district to which it applies.

(d) An executive order declaring a state of disaster emergency shall serve to activate the disaster response and recovery aspects of the Trust Territory, local and interjurisdictional disaster emergency plans applicable to the political subdivisions or area in question, and be authority for the deployment and use of any forces to which the plan or plans apply and for use or distribution of any supplies, equipment and materials and facilities assembled, stockpiled or arranged to be made available pursuant to this chapter or any other provision of law relating to disaster emergencies.

(e) During the continuance of any state of disaster emergency, the High Commissioner shall be in charge of all forces and personnel and he shall delegate or assign command authority by prior arrangement embodied in appropriate regulations, but nothing herein restricts his authority to do so by executive orders issued at the time of the disaster emergency.

(f) In addition to any other powers conferred upon the High Commissioner by law, he may, during a state of disaster emergency:

(1) suspend the provisions of any regulatory statute prescribing the procedures for conduct of Trust Territory business, or the orders, rules, or regulations of any Trust Territory activity or agency, if strict compliance with the provision of any such statute, order, rule or regulation would in any way prevent, hinder or delay necessary action in coping with the emergency;

(2) utilize all available resources of the Trust Territory Government as reasonably necessary to cope with the disaster emergency of each political subdivision of the Trust Territory;

(3) transfer the direction, personnel, or functions of Trust Territory Government departments and agencies or units thereof for the purpose of performing or facilitating emergency services;

(4) subject to any applicable requirements for compensation under section 5311 of this title, commandeer or utilize any private property if he finds this necessary to cope with the disaster emergency; provided however, that any such property that is not destroyed or totally damaged shall be returned to the owner immediately following the termination of the disaster emergency;

(5) direct and compel the evacuation of all or part of the population from any stricken or threatened area within the Trust Territory if he deems this action necessary for the preservation of life or public health or safety; provided however, that any person so evacuated shall be permitted to return to the place from which evacuated immediately following the termination of the disaster emergency;

(6) prescribe routes, modes of transportation, and destination in connection with evacuation;

(7) control ingress and egress to and from a disaster area, the movement of persons within the area, and the occupancy of premises therein;

(8) suspend or limit the sale, dispensing or transporting of alcoholic beverages, firearms, explosives, and combustibles; and

(9) make provision for the availability and use of temporary emergency housing.

Funds required for the operation of this office shall be included in the High Commissioner's annual budget request to the United States Congress, and the Congress of Micronesia shall not be expected to appropriate money for the operation of this office.

(b) The disaster control office shall prepare and maintain the Trust Territory disaster plan and keep it current, which plan may include:

(2) prompt and effective response to disaster;

- (3) emergency relief;

To this end, it shall employ or otherwise secure services of professional and technical personnel capable of providing expert assistance to political subdivisions, their disaster agencies, and interjurisdictional planning and disaster agencies. These personnel shall consult with district administrators and local agencies on a regularly scheduled basis and shall make field examinations of the areas, circumstances and conditions to which particular district local and interjurisdictional disaster plans are intended to apply, and may suggest revisions.

(d) In preparing and revising the Trust Territory disaster plan, the disaster control office shall seek the advice and assistance of local government, business, labor, industry, agriculture, civic and volunteer organizations, and community leaders. In advising district and local agencies, the disaster control office shall encourage them also to seek advice from these sources.

(e) The Trust Territory disaster plan, or any part thereof, may be incorporated in regulations of the High Commissioner or executive orders which have the force and effect of law.

(f) The disaster control office shall:

- (1) determine requirements for the Trust Territory and the political subdivisions thereof for food, clothing and other necessities in the event of an emergency;

§ 5307. Local disaster agencies and services.

(a) Each political subdivision within the Trust Territory shall, for purposes of this chapter, be within the jurisdiction of and served by the Trust Territory disaster control office and by a local or district agency responsible for disaster preparedness and coordination of response.

(b) The High Commissioner shall determine which political subdivisions within the Trust Territory need disaster agencies of their own and require that they be established and maintained; provided however, that the High Commissioner shall make available or seek sources of any funds he feels to be necessary for such agencies to be established and maintained. He shall make his determinations on the basis of each political subdivision's disaster vulnerability and capability of response related to population, size and concentration. The disaster control office shall publish and keep current a list of political subdivisions required to have disaster agencies under this subsection.

(c) Any provisions of this chapter or other law to the contrary notwithstanding, the High Commissioner may require a political subdivision to establish and maintain a disaster agency jointly with one or more contiguous political subdivisions if he finds that the establishment and maintenance of an agency or participation therein is made necessary by circumstances or conditions that make it unusually difficult to provide disaster prevention, preparedness, response or recovery services under other provisions of this chapter; provided however, that the High Commissioner shall make available or seek sources of any funds he feels to be necessary for such agencies to be established and maintained.

(d) Each political subdivision which does not have a disaster agency and has not made arrangements to secure or participate in the services of an agency shall have a liaison officer designated to facilitate the cooperation and protection of that subdivision in the work of disaster prevention, preparedness, response and recovery.

(e) The district administrator, chief magistrate or other principal executive officer of each political subdivision in the Trust Territory shall notify the disaster control office of the manner which the political subdivision is providing or securing disaster planning and emergency services, identify the persons who head the agency from which the service is obtained, and furnish additional information relating thereto as the disaster control office requires.

(f) Each district and local agency shall prepare and keep current a local disaster emergency plan for its area.

(g) The district or local disaster agency, as the case may be, shall prepare and distribute to all appropriate officials in written form a clear and complete statement of the emergency responsibilities of all local agencies and officials and of the disaster chain of command.

§ 5308. Intergovernmental arrangements.

If the High Commissioner finds that a vulnerable area lies only partly within the Trust Territory and includes territory in a foreign jurisdiction and that it would be desirable to establish an interterritorial or international relationship, mutual aid or an area organization for disaster, he shall take steps to that end as desirable consistent with the laws of the Trust Territory.

§ 5309. Local disaster emergencies.

(a) A local disaster emergency may be declared only by the district administrator or by the principal executive officer of a political subdivision within a district. It shall not be continued for a period in excess of seven (7) days. Any order or proclamation declaring, continuing or terminating a local disaster emergency shall be given prompt and general publicity and shall be filed promptly with the disaster control office and the Office of the Attorney General.

(b) The effect of a declaration of a local disaster emergency is to activate the response and recovery aspects of any and all applicable district or local disaster emergency plans and to authorize the furnishing of aid and assistance thereunder.

§ 5310. Disaster prevention.

(a) In addition to disaster prevention measures as included in the Trust Territory, district and local disaster plans, the High Commissioner shall consider, on a continuing basis, steps that could be taken to prevent or reduce the harmful consequences of disasters. At his direction, and pursuant to any other authority and competence they have, the Trust Territory agencies, including but not limited to those charged with responsibilities in connection with floodplain management, stream encroachment and flow regulation, weather modification, fire prevention and control, air quality, public works, land use and land-use planning, and construction standards, shall make studies of disaster prevention related matters. The High Commissioner, from time to time, shall make recommendations to the Congress of Micronesia, district legislatures, local governments and other appropriate public and private entities as may facilitate measures for prevention or reduction of the harmful consequences of disasters.

(b) The appropriate Trust Territory agency, in conjunction with the disaster control office, shall keep land uses and construction of structures and other facilities under continuing study and identify areas which are particularly susceptible to severe land shifting, subsidence, flood or other catastrophic occurrence. The studies under this subsection shall concentrate on means of reducing or avoiding the danger caused by this occurrence or the consequences thereof.

(c) If the disaster control office believes, on the basis of the studies or other competent evidence, that an area is susceptible to a disaster of catastrophic proportions without adequate warning, that existing building standards and land-use controls in that area are inadequate and could add substantially to the magnitude of the disaster, and that changes in zoning regulations, other land-use regulations or building requirements are essential in order to further the purposes of this section, it shall specify the essential changes to the High Commissioner. If the High Commissioner upon review of the recommendation finds that the changes are essential, he shall so recommend to the agencies or local governments with jurisdiction over the area and subject matter. If no action or insufficient action pursuant to this recommendation is taken within the time specified by the High Commissioner, he shall so inform the Congress of Micronesia and request legislative action appropriate to mitigate the impact of disaster.

§ 5311. Compensation.

(a) Each person within the Trust Territory shall conduct himself and keep and manage his affairs and property in ways that will reasonably assist and will not unreasonably detract from the ability of the government and the public successfully to meet disaster emergencies.

(b) No personal services voluntarily rendered for emergency disaster assistance, relief preparedness or response may be compensated by the Trust Territory or any subdivision or agency thereof, except pursuant to statute or local law or ordinance.

(c) Compensation for property shall be only if the property was commandeered or otherwise used in coping with a disaster emergency and its use or destruction was ordered by the High Commissioner or a member of the disaster emergency forces of the Trust Territory.

(d) Any person claiming compensation for the use, damage, loss or destruction of property under this chapter shall file a claim therefor within one (1) year after the claim first arose with the Office of the Attorney General in the form and manner that office shall provide.

(e) Unless the amount of compensation on account of property damaged, lost or destroyed is agreed upon between the claimant and the Office of the Attorney General, the amount of compensation shall be calculated according to fair market value as determined by three (3) uninterested assessors to be selected in the following manner: one by the claimant, one by the Attorney General and the third by the first two.

§ 5312. Communications.

The disaster control office shall ascertain what means exist for rapid and efficient communications in times of disaster emergencies. The office shall consider the desirability of supplementing these communications resources or of integrating them into comprehensive Trust Territory or Trust Territory-federal telecommunications or other communications systems or network. In studying the character and feasibility of any system or its several parts, the office shall evaluate the possibility of multi-purpose use thereof for general Trust Territory and local governmental purposes. The office shall make recommendations to the High Commissioner as appropriate.

§ 5313. Mutual aid.

The arrangements shall include provision of aid by persons and units in public employ as well as resources.

§ 5314. Weather modification.

The disaster control office shall keep continuously apprised of weather conditions which present danger or precipitation or other climatic activity severe enough to constitute a disaster. If the office determines that precipitation which may result from weather modification operations, either by itself or in conjunction with other precipitation or climatic conditions or activity, would create or contribute to the severity of a disaster, it shall direct the officer or agency empowered to issue permits for weather modification operations to suspend the issuance of the permits. Thereupon, no permits may be issued until the office informs the officer or agency that danger has passed.

RPPL 3-40 § 4, modified.

§ 5405. Selection and training requirements.

(a) No later than October 1, 1994, no person shall serve as a law enforcement officer, except on a temporary or probationary basis, unless such person has satisfactorily completed a preparatory program of first aid training at a school or program approved by the Council. A law enforcement officer who lacks first aid training qualifications required by this chapter shall not have his temporary or probationary employment extended beyond the term of his temporary or probationary employment unless and until such qualifications are obtained.

(b) In addition to the requirements of subsection (a) of this section, the Council, by rules and regulations, shall fix other qualifications as they deem necessary.

(c) The Council shall issue a certificate evidencing satisfaction of the requirements of subsections (a) and (b) of this section any applicant who presents such evidence as may be required pursuant to this chapter. Certification may take place when satisfactory completion of a program or course of instruction in a program or institution is confirmed by the Council to provide police first aid training.

(d) Nothing herein shall be construed to preclude the Bureau of Public Safety and the Ministry of Justice from establishing qualifications and standards for hiring, training, compensating, and or promoting law enforcement officers that exceed those set by the Council.

(e) Law enforcement officers already serving under full-time permanent appointment on the effective date of this chapter shall be required to meet the requirements of subsections (a), (b) and (c) of this section as a condition of tenure or continued employment; failure of any such law enforcement officer to fulfill such requirements shall make him ineligible for any promotional examination for which he is otherwise eligible. Law enforcement officers employed prior to the enactment of this chapter may continue their employment and participate in training programs on a voluntary or assigned basis, but failure to meet the standards herein set forth may be grounds for their dismissal or termination of employment.

Said funds and financial assistance shall be deposited in the Palau National Treasury in a separate account for the Council.

(b) Upon the need for the expenditure of funds, the Council shall submit its annual budget request to the President of the Republic in anticipation for budgetary needs for the following year. Such budget request, when granted, shall be administered by the Council and may be used to reimburse the salary and allowable tuition, living, and travel expenses incurred by the officers in attendance at approved training programs. After October 1, 1994, no funds from the account of the Council shall be expended for the purposes of financing first aid training for public enforcement officers.

§ 7002. Declaration of findings and policy.

It is hereby found and declared:

- (a) that the Congress of Micronesia seeks as its goal a decent home and suitable living environment for every Micronesian family;
- (b) that there exist in the Trust Territory overcrowded and blighted areas, as well as substandard and inadequate housing conditions and a serious shortage of safe, sanitary and decent dwelling accommodations which families and individuals can afford, and that these conditions present problems of immediate and long-range governmental concern;
- (c) that certain overcrowded or blighted areas or portions thereof may require acquisition, clearance, and disposition subject to use restrictions, as provided in this chapter, that other areas or portions thereof may, through the means provided in this chapter and in a manner consistent with the Land Planning Act, be susceptible of conservation or rehabilitation in such manner that the conditions and evils hereinbefore enumerated may be eliminated, remedied or prevented;
- (d) that these problems must be attacked by prompt and vigorous action in the interests of public safety, health and welfare; and
- (e) that the elimination and prevention of overcrowded and blighted areas, and the provision of safe, sanitary and decent housing which is consistent with the recommendations of the approved local master plan when one exists for families of low-income in the Trust Territory constitute public uses and public purposes and are proper governmental functions, devoted to the health, welfare and safety of the people of the Trust Territory, and that the powers conferred by this chapter are for public uses and purposes for which public money may be expended.
