LAW OF THE REPUBLIC OF UZBEKISTAN

ON LICENSING, PERMITTING AND NOTIFICATION PROCEDURES

Passed by the Legislative Chamber
5, 2021

Approved by the Senate on A

Chapter 1. General Provisions

Article 1. Purpose and scope of application of this Law

The purpose of this Law is to regulate relations in the field of licensing and notification procedures.

This Law does not apply to relations related to:

the use of intellectual property objects, as well as entrepreneurial activities carried out on the basis of a comprehensive entrepreneurial license agreement (comprehensive agreement);

state registration and registration of business entities, transactions, and property;

accreditation, certification, standardization, metrology and technical

state environmental expertise;

activities in the field of nuclear energy use;

issuance to individuals of permitting documents not specified in [Article 10](#) of this Law.

Licensing, permitting and notification procedures assigned to the Central Bank of the Republic of Uzbekistan in accordance with [Appendice](#) to this Law shall be carried out in the manner established by laws regula the relevant areas of activity.

See *previous* edition.

Licensing and permitting procedures assigned to the powers of the I for Prospective Projects of the Republic of Uzbekistan in accordance with [Article 4](#) and [Article 2](#) to this Law shall be carried out in the manner established by regulating relations in the relevant areas of activity.

(Article 1 is supplemented by part four **by the Law** of the Republic of L
September 6, 2023 No. ZRU-866 - National Legislation Database, 09/07/2023, No. 1)

See *previous* edition.

Licensing procedures related to the powers of the Agency for Development and Regulation of the Energy Market of the Republic of Uzbekistan in a [Appendix No. 1](#) to this Law shall be carried out in the manner established by regulating relations in the relevant areas of activity.

(Article 1 is supplemented by part five **by the Law of the Republic of L**
August 7, 2024 No. ZRU-939 - National Legislation Database, 08.08.2024, No.
Comes into force on November 9, 2024)

Article 2. Legislation on licensing, permitting and notification procedures

APPENDIX No. 4
Amounts of fines imposed on legal

The legislation on licensing, permitting and notification procedures Law and other legislative acts.

The specifics of licensing certain types of activities and permitting established by law.

If an international treaty of the Republic of Uzbekistan establishes those provided for by the legislation of the Republic of Uzbekistan on licensing and notification procedures, then the rules of the international treaty shall apply.

Article 3. Basic concepts

The following basic concepts are used in this Law:

licensee - a legal entity or individual who has a license to carry out a activity or its subtype;

license - a document issued to an individual or legal entity, grant carry out a licensed type of activity or its subtype, subject to mandatory licensing requirements and conditions;

licensing - a set of activities related to the process of filing, accepting an application for a license, issuing, extending the term, suspending, terminating a license, as well as canceling, reissuing and revoking a license

licensed type of activity - a type of activity determined by implementation of which a license is required on the territory of the Republic of Uzbekistan;

licensing, permitting and notification requirements and conditions - requirements and conditions established by law, the fulfillment of which is required from individuals and legal entities when carrying out licensed types of activities (actions) on the basis of permitting documents or in a notification

authorized bodies in the field of licensing, permitting and notification procedures (hereinafter referred to as authorized bodies) - specially authorized bodies and organizations that carry out licensing of certain types of activities, issue and receive documents, and also receive notifications through a special electronic system;

registers of licenses, permitting documents and notifications - authorized bodies containing information on issued, extended, suspended, terminated, cancelled, reissued and revoked licenses, permitting documents and notifications sent to authorized bodies by individuals and legal entities;

subtype of licensed type of activity - direction of the type of activity and composition of the licensed type of activity;

passport of public services (hereinafter referred to as the passport) - a document in the field of licensing, permitting and notification procedures, containing requirements and conditions, as well as information related to the licensing, permitting and notification procedures;

permitting procedure - a set of measures related to the process of accepting and considering an application for the issuance of a permitting document, extension of the term, suspension, renewal and termination of a permitting document as well as its cancellation and re-issuance;

a permit document is a document issued by an authorized body in the form of a permit, agreement, conclusion, as well as in other forms provided for by law, granting the right to carry out certain activities (actions) subject to mandatory licensing permit requirements and conditions;

applicant - an individual or legal entity who has applied for a licensing document;

notification - information sent by the notifier to the authorized body regarding the implementation of activities (actions) in a notification manner;

notifier - an individual or legal entity that has sent a notification to the body and is included in the register of notifications;

notification procedure - a set of measures related to the process of notification, accepting (not accepting) a notification, confirming the accuracy of a notification, as well as suspending, resuming, terminating the activities of the notifier and introducing a ban on the implementation of activities in a certain notification manner;

The “single window” principle is a procedure for providing services in cases where an authorized body requires various other documents from government agencies or organizations in order to issue an applicant a license. The authorized body requests and receives the said documents independently of the participation of the applicant.

Article 4. Basic principles in the field of licensing, permitting and notification procedures

The main principles in the field of licensing, permitting and notification procedures are:

- legality;

- openness of the activities of authorized bodies when carrying out activities in the field of licensing, permitting and notification procedures;

- priority of human rights and freedoms, legitimate interests of individuals and legal entities, protection of life and health of citizens, protection of public safety and environment;

- transparency of licensing, permitting and notification procedures;

- implementation of licensing and permitting procedures on a “single window” basis.

Article 5. Grounds for the introduction of licensing and permitting procedures

Licensing and permitting procedures are introduced in cases where the implementation of certain types of activities (actions) by individuals or legal entities may result in harm to the life and health of citizens, harm to the rights and legitimate interests of individuals and legal entities, harm to public safety and (or) harm to the environment.

Article 6. Powers of the Cabinet of Ministers of the Republic of Uzbekistan in the field of licensing, permitting and notification procedures

The Cabinet of Ministers of the Republic of Uzbekistan:

- ensures the implementation of state policy in the field of licensing, permitting and notification procedures;

- determines the procedure for licensing, permitting and notification procedures;

- See previous edition.*

- coordinates the activities of ministries and other government bodies in the field of licensing, permitting and notification procedures.

(paragraph four of part one of Article 6 as amended by the Law of the Republic of Uzbekistan dated November 28, 2023 No. ZRU-880 - National Legislation Database, No. 03/23/880/0905)

The Cabinet of Ministers of the Republic of Uzbekistan may also exercise the powers in accordance with the legislation.

- See previous edition.*

Article 7. Powers of the Ministry of Justice of the Republic of Uzbekistan in the field of licensing, permitting and notification procedures

(title of Article 7 as amended by the Law of the Republic of Uzbekistan dated January 16, 2024 No. ZRU-896 - National Legislation Database, January 16, 2024, No. 03/24/896)

- See previous edition.*

The Ministry of Justice of the Republic of Uzbekistan:

(paragraph one of part one of Article 7 as amended by the Law of Uzbekistan dated January 16, 2024 No. ZRU-896 - National Legislation Database, No. 03/24/896/0037)

studies the practice of compliance by authorized bodies with permitting and notification procedures and carries out its analysis;

carries out continuous monitoring of compliance by government agencies and organizations with licensing, permitting and notification procedures, including a special electronic system;

prepares proposals for improving legislation and law enforcement in the area of licensing, permitting and notification procedures.

See previous edition.

The Ministry of Justice of the Republic of Uzbekistan may also exercise its powers in accordance with the legislation.

(Part two of Article 7 as amended by the Law of the Republic of Uzbekistan dated January 16, 2024 No. ZRU-896 - National Legislation Database, January 16, 2024, No. 03/24/896/0037)

Article 8. Special electronic system

A special electronic system is the information system "License", which ensures the processes of licensing, passing permit and notification procedures, ensuring the electronic interaction of authorized bodies, as well as monitoring the implementation of licensing, permit and notification requirements and conditions, which are set for individuals and legal entities.

See previous edition.

The operator of the special electronic system is the Ministry of Justice of the Republic of Uzbekistan.

(Part two of Article 8 as amended by the Law of the Republic of Uzbekistan dated January 16, 2024 No. ZRU-896 - National Legislation Database, January 16, 2024, No. 03/24/896/0037)

The following are reflected in a special electronic system:

- 1) licensing processes, permitting and notification procedures, including:
 - filing an application for the issuance of a license or permit document and checking its validity and the documents attached to it;
 - consideration of applications and making decisions on the issuance of licenses or permitting documents by authorized bodies;
 - obtaining licenses and permitting documents in electronic form and their verification (data matrix barcode);
 - sending notifications to notify the authorized body of the completion or termination of activities and receiving confirmation of acceptance of the notification;
 - implementation of electronic payment of state fees and charges for licensing applications;
 - acceptance and consideration of applications for re-registration, renewal or cancellation of licenses and permitting documents;
- 2) processes of interaction between government bodies and organizations, including:
 - implementation of licensing, permitting and notification procedures, including the independent receipt of additional documents and information from government agencies and organizations, as well as coordination with the "single window" principle;
 - maintaining registers of licenses, permitting documents and notification documents;
 - verification of information related to licenses and permitting documents and sending notifications through the databases of relevant government agencies and organizations;
- 3) processes for monitoring compliance with licensing, permitting and notification procedures.

requirements and conditions, including:

implementation of remote monitoring by authorized bodies of compliance with licensing, permitting and notification requirements and conditions;

monitoring the consideration of applications at each stage of licensing and notification procedures;

appeals by authorized bodies to the court in the event of detection of non-compliance with the implementation of activities (actions) related to compliance with licensing and notification requirements and conditions;

implementation of public control in the field of licensing, permitting and notification procedures;

maintaining an automatically generated rating of authorized bodies;

implementation of a risk analysis system taking into account the specificity of licensing and permitting documents issued by authorized bodies, as well as activities (actions) on a notification basis, with the definition of specific criteria for monitoring (actions) of individuals and legal entities.

Other processes may also be reflected in a special electronic system established by law.

Article 9. Carrying out licensed activities by state institutions

State institutions created by decisions of the President of the Republic of Uzbekistan or the Cabinet of Ministers of the Republic of Uzbekistan have the right to carry out licensed types of activities without obtaining the appropriate license, provided that the implementation of these types of activities is provided for by decisions of the President of the Republic of Uzbekistan or the Cabinet of Ministers of the Republic of Uzbekistan. This rule does not exempt the said state institutions from fulfilling licensing requirements and conditions.

Article 10. Implementation of licensing, permitting and notification by branches and representative offices of legal entities

Branches and representative offices established by legal entities must obtain separate licenses and permitting documents. At the same time, branches and representative offices are indicated in the licenses and permitting documents previously obtained by legal entities, with changes made to them by authorized bodies.

Legal entities that have created branches and representative offices must, in the manner, must notify the authorized body about this through a special electronic system through the Unified Portal of Interactive Public Services of the Republic of Uzbekistan (hereinafter referred to as the UPIGS). In this case, the authorized body enters the said branches and representative offices into the register of notification.

Branches and representative offices, when carrying out licensed types of activities (actions) requiring the receipt of a permit document, must, in a notification manner, must comply with licensing and notification requirements and conditions.

Article 11. Registers of licenses, permitting documents and notifications

Registers of licenses, permits and notifications are maintained in a special electronic system separately for each type of activity. The information contained in the registers is open.

The following is reflected in the registers of licenses, permitting and notifications:

for a legal entity - name, location (mailing address), taxpayer identification number (TIN);

for an individual - last name, first name and patronymic, details document of the individual, personal identification number of the individual, address of the activity (actions);

information on branches and representative offices carrying out the activity (actions) requiring notification;

date and serial numbers of issued licenses, permitting documents and validity periods of licenses and permitting documents - for licenses and documents issued for a limited period of validity;

type (subtype) of activity (actions) for the implementation of which a permit document is required, as well as those carried out on a notification basis;

grounds and dates for re-registration, extension, suspension, renewal and cancellation of licenses and permitting documents;

grounds and dates of revocation of licenses;

information on the suspension, resumption, termination of the activity by the notifier, the period of prohibition on the implementation of activities and the notification procedure;

the grounds and dates for making changes to the license, permit document and sending notifications about changes in activities (actions) carried out in a certain manner;

the remaining period of the ban on carrying out activities (actions) by the individual.

Article 12. Maintenance of registers of licenses, permitting documents and notifications

Registers of licenses, permitting documents and notifications are maintained for the purpose of ensuring state registration of licensees, persons who have received permits, documents and notifiers, as well as implementing state control over compliance of said persons with licensing, permitting and notification requirements and conditions.

The authorized bodies are responsible for maintaining, on a periodic basis, the registers of licenses, permitting documents and notifications and making changes to them.

Chapter 2. Licensing

Article 13. Licensed types of activities

Licensed types of activities are the types of activities specified in Article 13 of this Law.

A license is issued separately for each licensed type of activity. In accordance with the applicant's application, a license may be issued for a subtype (subtypes) of activity.

The type (subtype) of activity for which the license has been issued may not be carried out by the individual or legal entity that has received the license, and the transfer of licenses or rights under them to other persons is prohibited.

The activity for which the license has been issued may be carried out on the territory of the Republic of Uzbekistan, unless otherwise provided in the law, and in accordance with the requirements and conditions.

Article 14. Authorized bodies in the field of licensing

Authorized bodies in the field of licensing:

accept and consider applications from applicants;

issue or refuse to issue licenses, extend the validity of licenses;

monitor compliance by licensees with licensing requirements and conditions.

- renew licenses;
- suspend and renew licenses;
- revoke licenses or apply to the court with a request to revoke them in the manner provided for in [Article 33](#) of this Law;
- change licenses;
- maintain a register of licenses.

Authorized bodies in the field of licensing may also exercise in accordance with the law, as well as the provisions on licensing of individual activities and their passports.

Authorized bodies in the field of licensing shall not have the right to create enterprises, institutions and organizations that carry out activities licensed by authorized bodies, or to participate in their activities as founders, participants, except in cases provided for by law.

Article 15. Types of licenses

Licenses can be standard (simple) and individual.

Standard (simple) licenses include licenses issued to an unlimited number of applicants, provided that they meet the uniform licensing conditions and requirements for the implementation of the relevant type of activity.

Individual licenses include licenses issued to applicants on the basis of licensing requirements and conditions, granting licensees exclusive right to carry out a given type of activity. Individual licenses are limited in their number by the type of operation, by the object of activity or on other grounds determined by the Ministers of the Republic of Uzbekistan.

The issuance of individual licenses is usually carried out on a competitive basis.

The procedure and conditions for issuing individual licenses, including for holding competitions (tenders), are determined by the Cabinet of Ministers of the Republic of Uzbekistan.

Article 16. Term of license

Licenses for the implementation of licensed types (subtypes) of activities are issued without limitation on their validity period, with the exception of licenses for the implementation of:

- medical activities;
- pharmaceutical activities;

See previous edition.

- activities related to wholesale and retail trade in mineral fertilizers used for plant protection;

(Part one of Article 16 is supplemented by paragraph four of the Law of the Republic of Uzbekistan dated May 24, 2022 No. ZRU-771 - National Legislation Database 03/22/771/0448 - Comes into force on August 26, 2022)

- activities related to the circulation of narcotic drugs, psychotropic substances and precursors;

- activities related to the cultivation, import (export), processing, storage, acquisition and transportation of cannabis plants containing the tetrahydrocannabinol up to 0.2 percent for industrial purposes not related to the production or manufacture of narcotic drugs and psychotropic substances;

- activities related to the operation and provision of mobile radiotelecommunications services and television and radio broadcast distribution networks;

- activities in the field of production, processing and sale of oil

activities in the field of production, processing and sale of oil, compressed natural and liquefied hydrocarbon) and gas condensate; refining activities.

See previous edition.

The validity periods of licenses for the implementation of type activities provided for in paragraphs two through nine of part one of this established in the regulations on licensing individual types of activities and but shall not be less than five years.

(Part two of Article 16 as amended by the Law of the Republic of Uzbekistan 2022 No. ZRU-771 - National Legislation Database, 05/25/2022, No. 03/22/771/04 force on August 26, 2022)

Upon expiration of the license, it may be extended upon application. An application for extension of the license shall be submitted to the author in the manner prescribed by Article 25 of this Law. The license shall be extended in the manner prescribed for issuing a license.

Article 17. State duty charged for issuing, extending and changing

A state fee is charged for issuing, extending and changing a license.

The amount and procedure for paying the state fee for issuing, extending and changing a license are established by the Law of the Republic of Uzbekistan "On State Fees".

For the issuance and extension of a license for a subtype of licensed activity, the authorized body may establish reduced rates of state duty.

For the following types of activities, annual state fees are established for the license:

- concert and entertainment activities;
- production of food and technical ethyl alcohol, alcoholic beverages;
- activities in the field of wholesale trade of alcoholic beverages;
- design, construction, operation and provision of telecommunication services.

Article 18. Procedure for obtaining a license by a licensee for a licensed type of activity

The licensee may expand the activities carried out on the basis of the license to include another subtype of the licensed activity.

When a licensee holding a license for the right to carry out a licensed activity in a certain area applies for a license for a subtype of activity in the same area, the licensee shall submit to the authorized body information that satisfies only the additional requirements and conditions imposed on the relevant subtype of activity. The authorized body shall make changes to the license previously received regarding the relevant subtype of the licensed type of activity.

Chapter 3. Permitting procedures

Article 19. Types of activities (actions) for which a permit document is issued

The types of activities (actions) for the implementation of which it is necessary to obtain a permit document are the types of activities (actions) specified in this Law.

Article 20. Authorized bodies in the field of licensing procedures

Authorized bodies in the field of licensing procedures:

- accept and consider applications from applicants for the issuance, extension, suspension, renewal, re-issuance and cancellation of a permit document;
- issue a permit document or a reasoned refusal to issue it within the term established in accordance with the requirements of this Law and the procedure.

procedure for undergoing permit procedures;

maintain a register of permitting documents;

provide, free of charge, upon oral or written request from applicant sent in the form of an electronic document, complete information consultations (explanations) on issues of permitting procedures;

create conditions for applicants to freely familiarize themselves with for undergoing permitting procedures and to freely submit documents re permitting documents;

issue permitting documents in electronic form;

in cases provided for in [Articles 32](#) and [33](#) of this Law, make decisions judicial consideration of issues regarding the suspension or cancell documents.

Authorized bodies in the area of permitting procedures may also powers in accordance with the law, as well as the provisions on the proced permitting procedures and their passports.

Article 21. Validity period of the permit document

The validity period of a permit document is generally not limited, stipulated by the provisions on the procedure for passing permit proce passports, as well as permit documents that are issued to perform a one-tir

Upon expiration of the validity period of a permit document, it may the request of the applicant. An application for an extension of the vali permit document shall be submitted to the authorized body in the mann [Article 25](#) of this Law. The validity period of a permit document shall be manner prescribed for issuing a permit document. The provisions on th undergoing permit procedures may establish a simplified procedure fo validity period of a permit document.

An applicant who has properly complied with the permitting rec conditions has a priority right to extend the validity of the permitting c document is issued on a competitive (tender) basis. This advantage appli an applicant who has properly complied with the permitting requirements is equivalent to the best offer of another applicant participating in t (tender).

Article 22. Fee for issuing or extending the validity of a permit doc

For the issuance or extension of the validity of a permit document, a 1 the cases and amounts established by the regulations on the procedure fo procedures, as well as their passports.

The amount of the fee for issuing or extending the validity of a perr distributed in accordance with the procedure established by law.

Chapter 4. Features of licensing and permitting procedure

Article 23. Provisions on licensing of certain types of activities and for passing permitting procedures, as well as their passports

The procedure for licensing and passing permitting procedures is de provisions on licensing of individual types of activities and the proced permitting procedures, as well as their passports, approved by the Cabine the Republic of Uzbekistan.

The provisions on licensing of certain types of activities and the undergoing permitting procedures provide for:

the name of the license or permit document, as well as the a responsible for issuing it;

the purpose of licensing or issuing a permit document;

an exhaustive list of documents to be submitted to obtain a license document;

the procedure and timeframes for considering an applicant's application for issuance of a license or a permitting document, the issuance of a document for its issue, including the procedure for holding a competition (tender) for the issuance of a license or a permitting document if the issuance of this document is on a competitive (tender) basis;

licensing or permitting requirements and conditions;

the procedure for interaction between authorized bodies in the field of licensing and permitting procedures with other government bodies and organizations for the issuance of licenses and permitting documents through a special electronic system;

the procedure for extending the term, reissuing, suspending, canceling licenses and permitting documents;

the validity period of a license and a permit document in cases where the issuance of a license or permit document cannot be issued for an unlimited period;

an exhaustive list of studies, research, surveys or other scientific assessments carried out by the authorized body or a third party engaged in the framework of the permitting procedure, if they are necessary to determine the need for performing actions and (or) carrying out certain activities by the applicant;

The provisions on licensing of certain types of activities and the provisions on permitting procedures may also contain other norms in accordance with the Law, and may also determine a simplified procedure for licensing and permitting procedures.

The passports of licenses and permitting documents contain information for the applicant to obtain a license and permitting document and continue the activity.

Article 24. Licensing and permitting requirements and conditions

Licensing and permitting requirements and conditions are specified in the provisions on licensing of individual types of activities and the provisions on permitting procedures, as well as in their passports, for each licensed type of activity (actions) for the implementation of which it is necessary to obtain a permitting document. At the same time, the introduction of requirements that restrict competition is prohibited.

The regulations on licensing of individual types of activities and the provisions on permitting procedures, as well as their passports, specify the requirements for licensing and permitting requirements and conditions:

mandatory compliance by individuals and legal entities with special legislation in the field of licensing and permitting procedures;

specific qualification requirements for persons applying to carry out a type of activity or a type of activity (action) requiring permitting procedures and special requirements for special training;

comprehensive requirements for special conditions for the implementation of a licensed type of activity or a type of activity (actions) requiring permitting procedures, including specific requirements for the material and technical base, equipment, and technical means used;

mandatory registration of cases of concluding new employment contracts with employees, amendments to contracts and their termination, as well as current employment contracts in the interdepartmental hardware and software system "Unified National Labor System" - if there is such a requirement for employment in the relevant activities (actions);

other licensing and permitting requirements and conditions, taking into account the specifics of the licensed type of activity or activity (actions) requiring special procedures.

Control by authorized bodies of compliance with licensing requirements and conditions is carried out on the basis of the results of monitoring of the system and appeals from individuals and legal entities regarding violations.

Article 25. Acceptance of applications for the issuance of license documents

Applications from applicants for the issuance of licenses or permitting documents as well as the documents attached to them, may be accepted through a special electronic system or through the Unified State Register of Public Services.

Applications for the issuance of licenses or permitting documents for activities involving secrets or information access to which is restricted in accordance with legislation may be accepted and submitted directly to authorized bodies.

From the moment the application and the documents attached to it are accepted by the authorized body in the manner prescribed by [parts one](#) and [two](#) of this Law, they are considered registered.

The corresponding document (mark) confirming the registration of the application and the documents attached to it is automatically sent (issued) to the applicant.

Refusal by the authorized body to accept an application is not permitted.

Licenses and permitting documents issued in electronic form may be accepted by interested persons in paper form using a special electronic system. In this case, licenses and permitting documents printed in paper form are equivalent to licenses and permitting documents issued in electronic form.

See [previous edition](#).

When an applicant submits an application through a special electronic system of the Unified State Information System (EPIGU), part of the state duty and fee, determined in the manner established in the regulations on licensing of certain types of activities, and the procedure for passing permitting procedures, as well as in their passport, are determined by the Fund for Development of Public Services of the Ministry of Justice of the Republic of Uzbekistan.

(part seven of article 25 as amended by the [Law of the Republic of Uzbekistan](#) of January 16, 2024 No. ZRU-896 - National Legislation Database, 01/16/2024, No. 03/2024)

Article 26. Documents required to obtain a license and permit document

When applying for a license or permit document in accordance with the procedure established by [Article 25](#) of this Law, the applicant shall provide the following documents:

for a legal entity - taxpayer identification number (TIN);

for an individual - last name, first name and patronymic, details of the passport or document of the individual, or the personal identification number of the individual (PINFL);

the type of licensed activity or the type of activity (actions) requiring special procedures that the applicant intends to carry out, as well as, in cases providing for a subtype of this activity;

other information confirming the applicant's ability to comply with licensing and permitting requirements and conditions stipulated by law.

The documents provided by the applicant, which are necessary for the issuance of a license or permit document, are considered reliable in all cases until the applicant proves otherwise.

The requirement that applicants submit documents not provided for in this Law and the provisions on licensing of certain types of activities and the procedure for

permitting procedures, as well as their passports, is not permitted.

When an applicant submits an application via a special electronic Unified State Register of Public Services, it is confirmed by an electronic dig

The applicant shall be held liable in accordance with the law for p distorted information.

Article 27. Registration and verification of the authenticity o permitting documents

Licenses and permitting documents are issued in electronic form w code (dot matrix bar code), with the exception of documents that requi special paper forms in accordance with international treaties of tl Uzbekistan.

The authenticity of all types of licenses and permitting documen comparing the unique QR code (matrix barcode) applied to these docu information contained in the relevant register. It is prohibited to require licenses and permitting documents in paper form.

Article 28. Consideration of applications from applicants for a lic document

In this case, the applicant cannot be held liable activities without a license and a permit document, and the authori responsible for all possible consequences.

Article 29. Refusal to issue a license and a permit document

The grounds for refusal of an application for a license or permit docur submission by the applicant of documents required for the issuanc

permit document incompletely;

non-compliance of the applicant with licensing and permitting requirements;

See previous edition.

a ban on obtaining a license for a period of one year for types of activities by law, or in relation to a person engaging in a certain type of activity or a court decision (sentence);

(Part one of Article 29 is supplemented with paragraph four by the Law of the Republic of Uzbekistan dated November 15, 2023 No. ZRU-878 - National Legislation Database of the Republic of Uzbekistan, No. 03/23/878/0852 - Comes into force on February 17, 2024)

the presence of false or distorted information in the documents submitted by the applicant;

a reasoned negative conclusion based on the results of studies, research, other scientific and technical assessments, when their implementation is not in accordance with the provisions on licensing of certain types of activities and for undergoing permitting procedures.

Refusal to issue a license or a permit document on the grounds of those specified in paragraph one of this article or on other grounds is not permitted, including in the following cases:

the professional qualifications of the personnel do not meet the requirements established by law;

non-compliance of submitted documents and programs with the requirements established by law;

non-compliance with sanitary and epidemiological requirements and requirements of buildings and structures operated in accordance with the requirements and conditions for permitting procedures.

In the event of detection of cases specified in paragraph two of part one of this article or paragraphs two, three and four of part two of this article, if the applicant has identified rectifiable deficiencies, the authorized body shall provide the applicant with a notice to rectify them. Notification of the need to rectify the deficiencies shall be sent by the authorized body in electronic form to the applicant through a special electronic system within one working day.

The notice shall be sent indicating the deficiencies identified in the documents and the methods for their elimination, as well as the period during which the applicant may resubmit the relevant documents for consideration, having eliminated the indicated causes. The period specified in the notice shall be proportionate to the time required to eliminate the deficiencies, but this period shall not exceed thirty working days.

In order to eliminate the identified deficiencies, the authorized body shall provide assistance and give recommendations to applicants in finding qualified specialists to finalize documents and programs, as well as in creating the necessary conditions for obtaining other licenses and permitting documents. The authorized body shall not provide assistance in cases where applicants refuse the offered assistance.

When a notice of rectification of deficiencies is sent, the period for consideration of the application for issuance of a license or permit document is suspended.

The authorized body has the right to decide to refuse to issue a license or permit document in the event of repeated submission of documents without eliminating the deficiencies specified in the notice, or upon expiration of the period specified in the notice. In this case, refusal to issue a license or a permit document on new grounds specified in the notice of elimination of deficiencies is not allowed.

A notice of refusal to issue a license or a permit document shall be sent to the applicant in electronic form via a special electronic system, indicating the reasons for the refusal, specific legal provisions and the period during which the applicant may resubmit the application.

eliminated the specified reasons, may submit documents for reconsideration during which the applicant has the right to eliminate the reasons for refusal. The period for submitting documents for reconsideration may not be less than ten working days from the date of receipt of the electronic notice of refusal to issue a license or a permit document.

If the applicant eliminates the reasons that served as the basis for the refusal to issue a license or permitting document within the established period, the re-examination of documents, the issuance of a license or permitting document or the refusal to issue a license or permit document may be carried out by the authorized body within a period not exceeding five working days from the date of receipt of the applicant's application to eliminate the reasons for refusal and the relevant documents certifying the elimination of the reasons for refusal. No fee shall be charged for the re-examination of the applicant's application.

When re-examining documents, authorized bodies are not allowed to issue a license or permit document for a type of activity or a combination of types of activity for which the reasons for refusal that were not previously stated to the applicant, with the exception of the reasons for refusal related to documents certifying the elimination of the reasons for refusal.

An application submitted by an applicant after the expiration of the period for submitting documents for reconsideration in the notice of refusal to issue a license or permit document is considered a new application and is considered by the authorized body on a general basis.

The applicant has the right to appeal, in the manner established by the Law, the refusal to issue a license or a permit document, as well as the actions of an official of the authorized body.

Article 30. Re-registration of a license and permit document

In the event of a transformation of a business entity - a legal entity, change of its name or location (mailing address) by type of activity, the business entity or its successor is obliged, within five working days after re-registration, to submit to the authorized body an application for re-issuance of a license or permit document with the attachment of documents confirming the specified information.

In the event of a change in the surname, first name, patronymic or place of residence of a business entity - an individual indicated in the certificate of state registration, the business entity is obliged, within five working days after re-registration, to submit to the authorized body an application for re-issuance of a license or permit document with the attachment of documents confirming the specified information.

In the event of a merger of business entities - legal entities that have state registration of the newly created legal entity, a license or permit document for implementation of the same activity (actions), it is permitted to reissue a license or permit document in the manner established by the first part of this article.

The license is reissued in the event of termination of the license for a specific type of activity or the combination of several types of activity.

In the event of a change in the information specified in a permit document not provided for in parts one through three of this article, the permit document is reissued upon the application of the business entity with the relevant documents attached.

The documents required for reissuing a license or permit document are submitted by the applicant in the manner prescribed by Article 25 of this Law.

See previous edition.

In the cases provided for in parts one and two of this article, an application for reissuance of a license or permit document may, at the request of the applicant, be submitted to the registering authority. In this case, the registering authority sends a notification to the authorized body via a special electronic system, indicating the data that served as the basis for re-registration of the business entity. When reissuing a license or permit document through the registering authority, no fee is charged.

(Article 30 is supplemented by part seven by the Law of the Republic of Uzbekistan No. 03/24/905/07, 2024 No. ZRU-905 - National Legislation Database, 02/07/2024, No. 03/24/905/07)

Before reissuing a license or permitting document, the business entity or its successor carries out the activities (actions) specified therein on the basis of the application for reissuing the license or permitting document.

When reissuing a license or permitting document, the authorized body makes appropriate changes to the registers of licenses and permitting documents.

See previous edition.

The renewal and issuance of a license or permitting document shall be carried out within a period of no more than five working days from the date of receipt by the authorized body of an application for renewal of a license or permitting document with the attachment of the relevant documents or notification provided for in Part Seven of this Article.

(part ten of article 30 as amended by the Law of the Republic of Uzbekistan No. 03/24/905/07, 2024 No. ZRU-905 - National Legislation Database, 02/07/2024, No. 03/24/905/07)

See previous edition.

When reissuing a license or permitting document, a fee shall be charged in the amount of fifty percent of the amount paid for consideration of the application for the issuance of a license or permitting document, except for the cases provided for in Part Seven of this Article. The fee amount shall be distributed in the manner established by law.

(Part eleven of Article 30 as amended by the Law of the Republic of Uzbekistan No. 03/24/905/07, 2024 No. ZRU-905 - National Legislation Database, 02/07/2024, No. 03/24/905/07)

Article 31. Change of license and permit document

Licenses or permitting documents may be changed by the authorized body on the basis of an application from the licensee or the person who received the document in the following cases:

expansion of the type of activity carried out on the basis of a license or permit document of the licensed type of activity;

commencement of activities by branches and representative office of the licensee with the license or permit document issued to the legal entities that have no branches and representative offices;

changes in the address of the business entity's activities - a legal entity or individual - if the license and permitting requirements and conditions are established in relation to the address;

Changes to licenses or permitting documents are made in accordance with the procedure established for issuing a license or permitting document.

When changing a license, a state fee is charged, and when changing a permit document, a fee is charged in the amount of fifty percent of the amount paid for the license or permit document, respectively.

Article 32. Suspension of a license and a permit document

The validity of a license or permit document may be suspended by the authorized body in the following cases:

identification of violations by the licensee or the person who received the document of licensing and permitting requirements and conditions;

failure by the licensee or the person who has received a permit document to comply with the decision of the authorized body obliging him to eliminate violations.

The suspension of a license or permit document is carried out by an authorized body for a period of up to ten days, and by a court for a period of more than ten days but not more than six months.

The decision of the authorized body to suspend the validity of a license or permit document shall be communicated to the licensee or the person who received the permitting document no later than one working day from the date of receipt of the document in electronic form through a special electronic system, indicating the reasons for the suspension of the license or permitting document and specific provisions of the law.

The court's decision to suspend the validity of a license or permit document shall be communicated to the licensee or the person who received the permit document within the timeframes established by law.

The authorized bodies or the court are obliged to establish the reasons for the suspension of the license or permit document by the licensee or the person who received the permit document. The specified period may not be less than five working days and more than ten working days from the date of receipt by the licensee or the person who received the permit document of the decision to suspend the license or permit document.

If the licensee or the person who received the permit document is obliged to make a decision to renew the license or permit document within three working days from the date of receipt of confirmation of the elimination of the circumstances that led to the suspension of the license or permit document, the authorized body or court that made the decision to suspend the license or permit document is obliged to make a decision to renew the license or permit document within three working days from the date of receipt of confirmation of the elimination of the circumstances.

The court's decision to renew the license or permit document shall be communicated to the relevant authorized body within one working day from the date of its adoption in accordance with the procedure established by law. The relevant authorized body shall, within a period not exceeding one working day, post the decision about the renewal of the license or permit document in a special electronic system.

If the authorized body does not make a decision within three working days to renew the license or permitting document or to refuse to renew the license or permitting document, the licensee or the person who received the permitting document may, after the expiration of the specified period, continue their activities by notifying the authorized body through a special electronic system.

If the licensee or the person who received the permitting document is obliged to eliminate, within the time period established by the authorized body or court, the circumstances that led to the suspension of the license or permitting document, for **in the first part** of this article, the court shall make a decision to cancel the suspension of the permitting document.

The decision of the authorized body to suspend the validity of a license or permit document may be appealed in accordance with the established procedure.

If the court finds the suspension of the license or permit document to be unjustified, the authorized bodies shall be liable to the licensee or the person who received the permit document in the amount of the losses incurred. In this case, the license or permit document shall be considered to be renewed from the date of the court's decision on the suspension of the license or permit document to be unjustified.

The licensee or the person who has received the permit document, in case of temporary suspension of their activities, may apply to the authorized body for an application to suspend the license or permit document for a period of up to one month. The licensee or the person who has received the permit document, within the period of the suspension of the license or permit document, does not apply to the authorized body with an application to renew the license or permit document, then the license or permit document shall be terminated.

Information on the suspension and renewal of a license or permit document shall be posted in a special electronic system within one working day from the date of the decision.

Article 33. Cancellation of a license and permit document

A license or permit document shall be cancelled in the following case

- an application from a licensee or a person who has received a permit to cancel the license or permit document;

- liquidation of a legal entity - from the moment of liquidation or termination of its activities as a result of reorganization - from the moment of reorganization, except for its transformation, as well as merger, if the reorganized legal entity is registered on the date of state registration of the newly created legal entity, a license or permit document for the implementation of the same licensed type of activity or type of actions (activities);

- termination of the certificate of state registration of an individual entrepreneur;
- restrictions in the established manner on legal capacity, recognition as incompetent;

- failure to pay within the established time period the state fee for issuance of a license or the fee for issuing a permit document;

- failure by the licensee or the person who has received the permit document to eliminate the circumstances that led to the suspension of the license or permit document within the time period established by the authorized body or the court;

- establishing the illegality of the decision of the authorized body to issue a license or permit document;

See previous edition.

- systematic (two or more times within one year) violation by the person who has received the permit document of the licensing or permit requirements and conditions;

- a single gross violation by the licensee or the person who has received the permit document of the licensing or permit requirements and conditions, if these violations resulted in harm to the life and health of citizens, damage to the rights and interests of individuals and legal entities, public safety and harm to the environment, damage to the interests of society and the state, or the creation of a threat to national security. The list of gross violations that are grounds for the cancellation of a license or permit document is determined in the provisions on licensing of individual activities and the procedure for undergoing permit procedures, as well as for issuing passports;

(paragraph nine of part one of Article 33 has been replaced by paragraph nine of the Law of the Republic of Uzbekistan dated November 15, 2023 No. ZRU-878 - National Legislation Database, November 16, 2023, No. 03/23/878/0852 - Comes into force on February 17, 2024)

- establishing the fact of obtaining a license or permit document without the required documents.

See previous edition.

In the cases provided for in paragraphs nine through eleven of part one of Article 33, a license shall not be reissued for one year for the types of activities determined in this article. This requirement also applies to new business entities created by the founder or owner of the business entity.

(Article 33 is supplemented by part two of the Law of the Republic of Uzbekistan dated November 15, 2023 No. ZRU-878 - National Legislation Database, November 16, 2023, No. 03/23/878/0852 - Comes into force on February 17, 2024)

The cancellation of a license or permit document shall be carried out by the authorized body in the cases specified in paragraphs two through six of this article.

See previous edition.

A license or a permitting document shall be cancelled by the court specified in [paragraphs seven through eleven](#) of Part One of this Article. The authorized body, no later than one business day from the date of filing an application to cancel the license or permitting document, shall inform the licensee or the person who received the permitting document in electronic form through a special electronic portal of the grounds for filing an application with the court to cancel the license or permitting document, indicating specific provisions of the law.

(Part four of Article 33 as amended by the Law of the Republic of Uzbekistan of November 15, 2023 No. ZRU-878 - National Legislation Database, November 15, 2023 No. 03/23/878/0852 - Comes into force on February 17, 2024)

See previous edition.

In the event of cancellation of a license or permit document specified in [paragraph eleven](#) of part one of this article, the license or permit document shall be considered canceled from the date of its issue.

(Part five of Article 33 as amended by the Law of the Republic of Uzbekistan of November 15, 2023 No. ZRU-878 - National Legislation Database, November 15, 2023 No. 03/23/878/0852 - Comes into force on February 17, 2024)

The court's decision to cancel a license or permit document shall be notified to the licensee or the person who received the permit document and the authorized body within the timeframes established by law.

The authorized body, no later than one working day from the date of filing an application to cancel the license or permitting document, shall inform the licensee or the person who received the permitting document in electronic form through a special electronic portal of the grounds for cancellation of the license or permitting document, indicating specific provisions of the law.

Within one working day, the authorized body, through a special electronic portal, enters information about cancelled licenses or permitting documents into the register of licenses or the register of permitting documents, respectively.

Article 34. Termination of a license and permit document

The validity of a license or permit document shall be terminated in the following cases:

- cancellation of the licensing or permitting procedure;
- expiration of the license or permit document;
- performance of a one-time action for which a permit document was issued;
- death of an individual who held a license or permit document;

- failure of the licensee or the person who has received the permitting document to apply to the authorized body within six months with an application to renew the license or permitting document (if they had previously applied to the authorized body with an application to suspend the license or permitting document for the specified period).

In cases of termination of a license or permitting document, the authorized body is not required to make a decision to terminate the license or permitting document.

Article 35. Fee for consideration of an applicant's application for issuance of a permit document

For consideration by the authorized body of the applicant's application for issuance of a license or a permit document, a fee is charged in the case established in the provisions on licensing of individual types of activities and for passing permit procedures, as well as in their passports. The amount of the fee is established within the limits of the authorized body's costs for consideration of the application for the issuance of a license or a permit document.

In the event of a decision to refuse to issue a license or permit document to an applicant, or if the applicant refuses the submitted application, the amount of the fee is not returned.

for reviewing the applicant's application for a license or permit document is refunded.

Chapter 5. Notification procedures

Article 36. Activities (actions) carried out in a notification procedure

Activities (actions) carried out in a notification manner include types (actions) that do not require a decision by an authorized body to comply with the requirements and conditions established in legislative state regulation, as well as maintaining records of entities engaged in activities and exercising control over their activities.

In order to carry out the types (subtypes) of activities (actions) specified in [No. 3](#) to this Law, it is necessary to notify the authorized body about it. It is prohibited to introduce new types (subtypes) of activities (actions) carried out in a notification procedure that are not provided for by this Law.

It is prohibited to engage in the types (subtypes) of activities (actions) specified in [part two](#) of this article without notifying the authorized body.

The notification procedure is provided for by a single regulation on the notification procedure, approved by the Cabinet of Ministers of the Republic of Uzbekistan.

Specific rules and features of activities (actions) carried out in a notification procedure are established in passports, which are appendices to the uniform regulation on the notification procedure.

Article 37. Requirements and conditions for activities (actions) carried out in a notification procedure

The requirements and conditions for activities (actions) carried out in a notification procedure are specified in the uniform regulation on the notification procedure and passports approved by the Cabinet of Ministers of the Republic of Uzbekistan for activities (actions) carried out in a notification procedure.

The unified regulation on the notification procedure and passports is established with the following requirements and conditions:

- mandatory compliance with the requirements and conditions specified in the uniform regulation on the notification procedure and passports and the acceptance of the obligation to fulfill them;

- ensuring the accuracy of the information in the notification of the activity (actions) (hereinafter referred to as the notification);

- mandatory registration of cases of concluding new employment contracts with employees, amendments to contracts and their termination, as well as termination of current employment contracts in the interdepartmental hardware and software system "Unified National Labor System" - if there is such a requirement for employment in the relevant activities (actions);

- notification of the authorized body within ten working days after a change in the name, location (residential address) of the notifier or the branch or representative office;

- other requirements and conditions taking into account the specific activity (actions) carried out in a notification manner.

The list of cases of systematic (two or more times within one year) or repeated violation of the requirements and conditions for activities (actions) carried out in a notification manner is established in the passports.

Article 38. Procedure for sending notification and its registration

The notifier (the person authorized to act on his behalf) sends a notification to the authorized body using an electronic digital signature through a special electronic system or the Unified State Information System.

When sending a notification, the information provided in the passport and the documents attached.

The requirement for any additional documents other than those passports is not permitted.

Notifiers, by sending a notification, confirm compliance with the conditions established by [Article 37](#) of this Law for the implementation (actions) in respect of which the notification procedure has been introduced.

To carry out activities (actions) requiring notification, a fee of up to fifty basic calculation amount is charged, with the exception of notification commencement of retail trade in alcoholic beverages and the sale of alcohol by public catering establishments.

Notifiers are responsible for the accuracy of the information provided in the notification sent to the authorized body. The information included in the notification is checked automatically based on the information available in the information interaction systems through a special electronic system.

See previous edition.

When the notifier sends a notification via a special electronic system of the State Information System in the manner prescribed by the first part of the article, the fee distributed in the manner established in the passport is sent to the Development Fund of the Ministry of Justice of the Republic of Uzbekistan.

(part seven of article 38 as amended by the Law of the Republic of Uzbekistan of January 16, 2024 No. ZRU-896 - National Legislation Database, 01/16/2024, No. 03/2024)

Article 39. Failure to accept notification

The notification shall not be accepted by the authorized body in the following cases: detection, through a special electronic system, of the entry of false information;

failure to pay the fee for sending a notification;

failure to confirm compliance and fulfillment of the requirements established for the implementation of activities (actions) in a notification form;

if the notifier was previously entered into the register of notification activity (actions) and its activity (actions) is valid;

suspension of the activities (actions) of the notifier for a specific period by the authorized body or a court;

prohibition on the notifier from carrying out the relevant activities on the basis of a court decision.

It is prohibited to reject a notification for reasons other than those specified in this article.

Article 40. Confirmation of acceptance of notification

A notification sent in compliance with the requirements and conditions established by this Law, as well as the uniform regulation on the notification procedure, is automatically accepted through a special electronic system, and the notifier receives a confirmation of acceptance of the notification.

Information about the notifiers to whom the confirmation is sent is generated in the notification register.

Article 41. Grounds for suspension of the activities (actions) of the notifier during the notification procedure

The activities (actions) of the notifier, carried out in accordance with the notification procedure, are suspended for a certain period on the following grounds:

at the initiative of the authorized body;

when considering in court a case on the termination of the activities of the notifier, carried out in a notification manner, before the entry into force of the decision.

Article 42. Procedure for suspending the activities (actions) of a notifier carried out in a notification manner, at the initiative of an authorized body

The authorized body may suspend the activities (actions) of the notifier carried out in accordance with the notification procedure, for a period not exceeding ten working days, in the event of detection of a violation of the requirements and conditions set forth in the passports that are appendices to the uniform regulation on the notification procedure.

In the event that grounds for suspending the activities (actions) of the notifier carried out in accordance with the notification procedure are identified, the authorized body shall draw up a report and familiarize the notifier with this report.

Within one working day from the date of drawing up the act, the authorized body shall suspend the activities (actions) of the notifier, carried out in accordance with the notification procedure, for a period not exceeding ten working days, and shall issue a decision containing an instruction to eliminate the identified deficiencies within which the activities (actions) of the notifier are suspended.

The authorized body, within one working day, sends the notifier a decision to suspend its activities (actions) carried out in accordance with the notification procedure via a special electronic system and, on the same day, enters information on the suspension of the notifier's activities (actions) carried out in accordance with the notification procedure into the notification register.

Article 43. Resumption of activities (actions) of the notifier suspended in accordance with the notification procedure, carried out in the notification procedure

After the notifier receives, in the prescribed manner, a decision on the suspension of its activities (actions) carried out in accordance with the notification procedure, the notifier must eliminate the deficiencies specified in the decision and send information on the elimination of deficiencies to the authorized body with supporting documents attached.

The authorized body, within five working days from the date of receipt of information on the elimination of deficiencies, must analyze this information and, if necessary, verify the information received by visiting the site. In this case, the authorized body shall draw up a report on the elimination of deficiencies and sends it to the notifier via a special electronic system.

The authorized body, within one working day after sending the report on the elimination of deficiencies, must:

make a decision on the resumption of the activities (actions) of the notifier carried out in accordance with the notification procedure;

send to the notifier, via a special electronic system, a decision on the resumption of its activities (actions) carried out in accordance with the notification procedure;

make a note in the register of notifications about the resumption of the activities (actions) of the notifier.

If the notifier fails to eliminate the deficiencies that became the grounds for the suspension of its activities (actions) carried out in accordance with the notification procedure, the authorized body shall take measures to terminate the activities of the notifier.

If the authorized body has not taken the measures provided for in [three](#) of this article, the notifier may continue its activities (actions) carried out in accordance with the notification procedure through a special electronic system.

Article 44. Grounds for termination of the activities (actions) carried out in the notification procedure

The activities (actions) of the notifier, carried out in accordance with procedure, shall be terminated on the basis of:

notification sent to the authorized body by the notifier about the termination of the activities (actions);

court decisions on the termination of the activities (actions) of the notifier in accordance with the notification procedure.

Article 45. Termination by the notifier of its activities (actions) carried out in the notification procedure

The notifier must notify the authorized body of the termination of the activities (actions) carried out in accordance with the notification procedure, through the electronic system or the Unified State Information System.

A fee is not charged for the notification by the notifier of the termination of the activities (actions) carried out in accordance with the notification procedure.

After the notifier sends a notice of termination of its activity (action) in accordance with the notification procedure, its activity (actions) is considered terminated from the date specified in the notice, and a note about this is automatically entered in the register of notifications.

Article 46. Termination by the court of the activities (actions) carried out in the notification procedure

An application for termination of the activities (actions) of the notifier carried out in the notification manner, is submitted to the court by the authorized body in the following cases:

identification of false or inaccurate information specified in the notification at the commencement of activities (actions) sent by the notifier;

failure by the notifier to eliminate, within the time period established by the authorized body, deficiencies associated with the violation of established requirements and conditions;

See previous edition.

systematic (two or more times within one year) violation of established requirements and conditions;

a single gross violation of established requirements and conditions, if it resulted in harm to the life and health of citizens, damage to the rights and interests of individuals and legal entities, public safety and harm to the environment, damage to the interests of society and the state, creating a threat to peace and security.

(paragraph four of part one of Article 46 has been replaced by paragraph four of the Law of the Republic of Uzbekistan dated November 15, 2023 No. ZRU-701-son 07/14/2021. On licensing, permitting and notification procedures, November 16, 2023, No. 03/23/878/0852 - Comes into force from January 1, 2024)

In cases provided for in Part One of this Article, the authorized body prepares a report and sends it to the notifier within one working day via a special electronic system. Within five working days after drawing up the report, the authorized body submits an application with the court to terminate the notifier's activities (actions) carried out in the notification procedure.

In the event that the court does not satisfy the application of the authorized body to terminate the activities (actions) of the notifier carried out in accordance with the notification procedure, the authorized body shall be liable to the notifier for the damage incurred by the notifier.

The authorized body, within three working days from the date of the court decision on the termination of the activities (actions) of the notifier, shall inform the notifier of the decision.

accordance with the notification procedure, makes a note in the register of

In the event of termination of the activities (actions) of the notifier in accordance with the notification procedure, on the grounds specified in [paragraph](#) of part one of this article, it shall be considered terminated from sending the notification by the notifier.

Persons whose activities (actions) have been terminated by court order are included in a separate list in a special electronic system.

Article 47. Prohibition on the implementation by the notifier of activities (actions) carried out in the notification procedure

The authorized body, taking into account the significance of the violation by the notifier, may provide in the application for termination of activities carried out in the notification procedure a requirement to prohibit the notifier from carrying out the types (subtypes) of activities (actions) included in [Appendix No. 3](#) to the Law for a period of up to three months. In this case, the specific period of the prohibition on carrying out activities (actions) in the notification procedure is determined by the authorized body in accordance with the law.

See previous edition.

In cases provided for in [paragraphs two, four and five of part one of the Law](#), it is prohibited to carry out activities (actions) in a notification procedure for activities defined in legislation for a period of up to six months. This requirement applies to new business entities created by the founder or beneficial owner of the entity.

(Article 47 is supplemented by part two of the Law of the Republic of Uzbekistan dated November 15, 2023 No. ZRU-878 - National Legislation Database, November 15, 2023, No. 03/23/878/0852 - Comes into force on February 17, 2024)

Chapter 6. State control in the field of licensing, permitting and notification procedures

Article 48. Rights of authorized bodies in the implementation of state control over compliance with licensing, permitting and notification requirements and conditions

The activities of licensees, persons carrying out activities on the basis of licenses, documents, and notifiers are controlled by authorized bodies.

When implementing state control over compliance with licensing, permitting and notification requirements and conditions, authorized bodies, within the powers, have the right to:

See previous edition.

conduct on-site inspections of compliance by individuals and legal entities with licensing, permitting and notification requirements and conditions in accordance with the powers of the Commissioner under the President of the Republic of Uzbekistan for the Field of Rights and Legitimate Interests of Business Entities or with his notification requirements established by law;

(paragraph two of part two of Article 48 as amended by the Law of the Republic of Uzbekistan dated November 15, 2023 No. ZRU-878 - National Legislation Database, November 15, 2023, No. 03/23/878/0852 - Comes into force on February 17, 2024)

request and receive from individuals and legal entities the necessary information and documents arising during inspections of compliance with licensing, permitting and notification requirements and conditions;

draw up reports based on the results of inspections indicating violations by individuals and legal entities of licensing, permitting and notification requirements and conditions;

make decisions obliging individuals and legal entities to eliminate violations and set deadlines for eliminating such violations;

apply to the court with a request to suspend the license or permit cancel it;

make decisions on the suspension and resumption of the activities of notifiers, file a petition with the court to terminate their activities, as well as a notifier from carrying out activities (actions);

file a claim with the court for the imposition of a fine on a legal entity in the area of licensing, permitting and notification procedures (hereinafter fine) in accordance with this Law;

submit applications to the court for the exercise of powers in the area of permitting and notification procedures without paying state fees.

See previous edition.

Authorized bodies have the right to conduct control measures in accordance with the established procedure to identify cases of individuals and legal entities carrying out activities without a license or permit document, as well as without sending a notification. In this case, authorized bodies only check the availability of documents confirming the right to carry out the relevant types of activities and sending a notification.

In the event that the absence of documents confirming the right to carry out relevant types of activities or failure to send a notification is detected, control measures on the facts of violation of the law, an inspection is carried out jointly with the Commissioner under the President of the Republic of Uzbekistan for the Protection of the Rights and Legitimate Interests of Business Entities. A notification is sent to the notifier.

Inspections of business entities related to the implementation of licensing, permitting and notification requirements and conditions are carried out in agreement with the Commissioner under the President of the Republic of Uzbekistan for the Protection of the Rights and Legitimate Interests of Business Entities or with his notification in the established manner.

(Part three of Article 48 has been replaced by parts three, four and five of Article 49 of the Law of the Republic of Uzbekistan dated November 15, 2023 No. ZRU-878 - National Legislation, No. 03/23/878/0852 - Comes into force on February 17, 2024)

Article 49. Forms of state control over compliance with licensing, notification requirements and conditions

State control over compliance with licensing, permitting and notification requirements and conditions is carried out in the following forms:

remote monitoring of compliance with licensing, permitting and notification requirements and conditions (hereinafter referred to as remote monitoring) using an electronic system;

verification of compliance with licensing, permitting and notification requirements and conditions with an on-site visit if there are grounds and in the manner established by law;

analysis of statistical information related to the activities of legal entities carrying out activities on the basis of permitting documents, notifiers, and other information requested from them.

In the cases provided for in paragraph four of part one of this article, authorized bodies are prohibited from analyzing, checking, and requesting from legal entities carrying out activities (actions) on the basis of permitting documents, notifiers, and other information not related to licensing, permitting, and notification requirements and conditions.

When carrying out activities related to monitoring the activities of legal entities carrying out activities on the basis of permitting documents, and notifiers, authorized bodies are prohibited from conducting inspections or requiring them to comply with requirements and conditions not provided for in the relevant passports.

In the event of detection of violations of licensing, permitting and notification requirements and conditions, regulatory and law enforcement agencies shall inform the authorized bodies.

Article 50. Remote control

The authorized body carries out remote monitoring based on the special electronic system based on the information provided about employers and persons carrying out activities on the basis of permitting documents, compliance with licensing, permitting and notification requirements and conditions, as well as information received from other government agencies and organizations.

When implementing remote monitoring, messages about violation of licensing, permitting and notification requirements and conditions by licensees, persons operating on the basis of permitting documents, and notifiers, received automatically via a special electronic system. The authorized body's "personal account" in a special electronic system receives messages, the authorized body analyzes and studies the activities of licensees and legal entities. In this case, the authorized body is obliged to take measures for eliminating violations of licensing, permitting, and notification requirements and conditions.

Licensees, persons operating on the basis of permitting documents, and notifiers are required to comply with the requirements set out in the instruction issued by the authorized body on the basis of remote monitoring within ten working days from the date of the instruction. In the event of failure to comply or untimely compliance with the instruction, the authorized body may conduct an inspection of their activities and the risk analysis system.

Remote monitoring of licensing, permitting and notification requirements and conditions is carried out by authorized bodies on an ongoing basis.

Article 51. Verification of compliance with licensing, permitting and notification requirements and conditions with an on-site visit

Verification of compliance with licensing, permitting and notification requirements and conditions with an on-site visit is carried out on the basis of:

risk analysis systems;

appeals from individuals and legal entities, including public control entities;

information from individuals on cases of violation of legislation on licensing, permitting and notification procedures, sent through a special electronic system.

See previous edition.

Verification of compliance with licensing, permitting and notification requirements and conditions with an on-site visit is carried out in agreement with the President of the Republic of Uzbekistan or with his notification in the manner established by law.

(Part two of Article 51 as amended by the Law of the Republic of Uzbekistan of November 15, 2023 No. ZRU-878 - National Legislation Database, November 15, 2023/03/23/878/0852 - Comes into force on February 17, 2024)

Verification of compliance with licensing, permitting and notification requirements and conditions with an on-site visit is carried out within ten days.

In the event that violations related to engaging in the relevant activity without a license or permit document, as well as without sending a notification, are detected on appeals from individuals and legal entities, individuals and legal entities reporting this to the authorized body are rewarded with a monetary reward in the amount of 10 percent of the amount of the fine collected upon confirmation of the violation.

Article 52. Grounds for liability for violations in the field of licensing, permitting and notification

and notification procedures

For violations in the area of licensing, permitting and notification procedures, individuals are subject to criminal and/or administrative liability in accordance with the law.

Fines are imposed on legal entities for the following violations in the area of licensing, permitting and notification procedures:

See previous edition.

engaging in activities without a license, a permit document and without the authorization of the authorized body, as well as engaging in such activities when the license, permit document or the authorization of the authorized body is suspended;

(paragraph two of part two of Article 52 as amended by the Law of the Republic of Uzbekistan dated November 15, 2023 No. ZRU-878 - National Legislation Database of the Republic of Uzbekistan, No. 03/23/878/0852 - Comes into force on February 17, 2024)

obtaining a license and permitting documents using forged documents;

providing the authorized body with false or inaccurate information about the fulfillment of the requirements and conditions established for the implementation of the activities (actions) in a notification manner.

Fines are imposed by authorized bodies on the basis of control measures in the manner prescribed by Part Two of Article 48 of this Law. In this case, a violation identified during the control measure is drawn up, which is signed by the authorized body and the legal entity - the offender (hereinafter referred to as the offender) respectively.

If the offender (his representative) refuses to sign the act, the authorized body must confirm this fact with the help of a video recording of the said act, or in the presence of two witnesses. The witnesses are obliged to confirm the fact, content and results of the actions performed in their presence and have the right to make comments regarding the actions performed, which are subject to recording in the act. If necessary, the witnesses may be questioned on the specified conditions.

Bringing a legal entity to liability for committing offenses provided for in this Article does not exempt its officials, if there are appropriate administrative, criminal or other liability provided for by law.

Article 53. Time limit for making a decision on imposing a fine

The decision to impose a fine is made by the authorized body within five working days from the date of registration of the act on the detection of the offer of the offender on the basis for imposing the fine.

The decision to impose a fine is signed by the first head of the authorized body (or the person replacing him) and is sent to the offender within one working day from the date of signing.

Article 54. Amounts of fines

The amounts of fines are indicated in Appendix No. 4 to this Law, taking into account the degree of risk and the period for each type of activity (action) carried out.

Ten percent of the amount of the fine collected is sent to the offender, but not less than 100,000 soums; the remaining part is sent to the State Budget of the Republic of Uzbekistan.

Article 55. Procedure for voluntary payment of a fine

Within one month from the date of sending the decision to impose a fine, the offender may voluntarily pay the amount of the fine provided for in this decision.

In the event of voluntary payment by the offender of seventy percent of the amount specified in the decision to impose the fine and an application to the authorized body for the issuance of a license, a permit document or the sending of a notification, the offender is exempt from paying the remaining amount of the fine.

In the case provided for in [part two](#) of this article, the authorized body shall create the necessary conditions and provide assistance for the offender to carry out the work in accordance with the requirements of the law and licensing, permitting requirements and conditions.

Article 56. Collection of a fine through the courts

If the offender fails to pay the fine voluntarily, the authorized body shall, on the next working days, in the prescribed manner, file an application with the court of the fine.

The execution of a court decision on the collection of a fine that has legal force shall be carried out in accordance with the procedure established by law.

Article 57. Appealing a decision to impose a fine

The offender has the right to appeal the decision of the authorized body to impose a fine in the manner established by [Chapter 7](#) of this Law.

Chapter 7. Procedure for appealing decisions (actions) of authorized bodies of licensing, permitting and notification procedures

Article 58. Appealing decisions (actions) of authorized bodies and their officials

Individuals and legal entities may appeal decisions (actions) of authorized bodies and their officials related to their activities.

The complaint is filed:

in relation to an authorized body at the territorial level - to its superior body;

in relation to an authorized body at the republican level - to the authorized body created in this body. The rules for creating an appeals board may be established by regulations on licensing of individual types of activities and the permitting procedures, as well as in a single regulation on the notification procedures based on the specifics of the activity.

Individuals and legal entities have the right to appeal decisions of authorized bodies and their officials directly to the court in accordance with the established procedure.

Unless otherwise provided by law, a complaint may be filed no later than 10 days from the date of proper notification of the decision or from the date when the legal entities learned of the actions of the authorized body or its officials.

Article 59. Form and content of the complaint

The complaint shall be submitted in written, oral or electronic form and shall contain:

the name of the authorized body that made the decision or carried out the action;

the last name, first name, patronymic and place of residence of the representative (or the last name, first name, patronymic and place of residence of the representative) who filed the complaint, and for a legal entity - its name and address (postal address);

demands of the person filing the complaint;

list of attached documents (if any);

date of filing the complaint.

The complaint is signed by an individual or legal entity (its representative). If the complaint is filed by a representative, a copy of the power of attorney or other document confirming the representative's authority must be attached to it.

In the case of an oral complaint, an individual must present a document confirming his identity, and a representative of a legal entity must present a document confirming his authority and identity.

A complaint submitted in electronic form shall indicate the electronic signature of the person filing the complaint.

unique identifier of an individual or legal entity, and in cases provided for signature and other details.

Article 60. Consideration of complaints

The higher authorized body and the appeal council that received the within three working days from the date of its receipt, request relevant into the contested decision and actions.

The superior authorized body or appeal board shall make a complaint within fifteen working days.

The superior authorized body or the appeal board has the right to make the following decisions on the complaint:

leave the contested decision unchanged;

make changes to the contested decision;

cancel the decision and, if necessary, make a new decision;

oblige the authorized body or its official to perform certain actions on the submitted complaint.

The decision of the appeal board on the complaint is taken unanimously by its members. However, no member of the appeal board has the right to abstain from voting.

When appealing a decision of an authorized body, from the moment the appeal is registered with a higher authorized body or appeal council, the following shall be suspended:

the effect and execution of the decision, except in cases of suspension of the permit document or the activity (actions) of the notifier carried out in accordance with the notification procedure;

period for voluntary payment of the fine.

Chapter 8. Final Provisions

Article 61. Frequency of revision of the licensing procedure, permitting and notification procedures

The Cabinet of Ministers of the Republic of Uzbekistan shall, at least once every five years, ensure a review of each licensing procedure, permitting and notification procedure provided for by this Law, with an assessment of the goals achieved and the results of its application, the current state of socio-economic, innovative and technological development, as well as the costs of business entities.

Article 62. Dispute resolution

Disputes arising in the area of licensing, permitting and notification procedures shall be resolved in accordance with the procedure established by law.

Article 63. Liability for violation of legislation on licensing, permitting and notification procedures

Persons guilty of violating the legislation on licensing, permitting and notification procedures shall be held liable in accordance with the established procedure.

Article 64. Recognition of some legislative acts of the Republic of Uzbekistan as invalid

To declare as invalid:

		storage of pyrotechnic products;	
		sale of pyrotechnic products;	
		use of pyrotechnic products for technical and special purposes (hazard classes III - V).	
23.	License for activities related to the circulation of narcotic drugs, psychotropic substances and precursors	Import (export) of narcotic drugs, psychotropic substances and precursors;	Ministry o (
		storage and sale (dispensing) of narcotic drugs, psychotropic substances and precursors;	
		storage and distribution of narcotic drugs, psychotropic substances and precursors;	
		transportation of narcotic drugs, psychotropic substances and precursors;	
		development and storage of new narcotic drugs and psychotropic substances;	
		production, manufacture and storage of narcotic drugs, psychotropic substances and precursors;	
		destruction of narcotic drugs, psychotropic substances and precursors;	
		the use and storage of narcotic drugs, psychotropic substances and precursors for scientific and educational purposes, for production needs, including in medicine and veterinary science;	
		cultivation and storage of drug-containing plants.	
	License for activities related to cultivation, import (export), processing, storage, sale (release), acquisition and transportation of cannabis plants containing the narcotic drug tetrahydrocannabinol up to 0.2 percent for industrial	Cultivation of cannabis plants containing the narcotic drug tetrahydrocannabinol up to 0.2 percent for industrial purposes not related to the production or manufacture of narcotic drugs and psychotropic substances;	
		import (export) of cannabis plants containing the narcotic drug tetrahydrocannabinol up to 0.2 percent for industrial purposes not related to the production or manufacture of narcotic drugs and psychotropic substances;	

24.	purposes not related to the production or manufacture of narcotic drugs and psychotropic substances	processing of cannabis plants containing the narcotic drug tetrahydrocannabinol up to 0.2 percent for industrial purposes not related to the production or manufacture of narcotic drugs and psychotropic substances;	Ministry of the Republic
		storage of cannabis plants containing the narcotic drug tetrahydrocannabinol up to 0.2 percent for industrial purposes not related to the production or manufacture of narcotic drugs and psychotropic substances;	
		sale (dispensing) of cannabis plants containing the narcotic drug tetrahydrocannabinol up to 0.2 percent for industrial purposes not related to the production or manufacture of narcotic drugs and psychotropic substances;	
		acquisition of cannabis plants containing the narcotic drug tetrahydrocannabinol up to 0.2 percent for industrial purposes not related to the production or manufacture of narcotic drugs and psychotropic substances;	
		transportation of cannabis plants containing the narcotic drug tetrahydrocannabinol up to 0.2 percent for industrial purposes not related to the production or manufacture of narcotic drugs and psychotropic substances.	
25.	License for medical activities	By types of medical specializations in which medical activities are carried out.	Ministry of Health
26.	License for pharmaceutical activities	Production of medicines;	Agency for Pharmaceutical Regulation, Ministry of Health
		manufacturing of medicines;	
		wholesale distribution of medicines;	
		retail sale of medicines and medical products (except for retail sale of ophthalmological medical products).	Territorial Agency for Pharmaceutical Regulation, Ministry of Health
27.	License for veterinary activities	Veterinary laboratory diagnostic work;	Committee for Veterinary Regulation, Ministry of Agriculture and Forestry
		production and manufacturing of veterinary drugs, including medicinal products for veterinary purposes, feed additives, biological products and zoohygienic products;	
		sale of veterinary drugs, including medicinal products for veterinary purposes, feed additives, biological products and zoohygienic products.	
28.	License for the activity of repair, construction and installation works at heights using industrial mountaineering methods	Carrying out repair work at heights using industrial mountaineering methods;	Ministry of Emergency Situations
		production of construction and installation works at heights using industrial mountaineering methods.	
29.	License for activities related to design, construction and repair of bridges and tunnels	Design of bridges and tunnels;	Ministry of Emergency Situations
		construction of bridges and tunnels;	
		repair of bridges and tunnels.	
30.	License for activities related to the design, construction and operation of high-risk facilities and potentially hazardous production facilities	Design of high-risk facilities and potentially hazardous industries;	Ministry of Emergency Situations
		construction of high-risk facilities and potentially hazardous industries;	
		operation of high-risk facilities and potentially hazardous industries.	

31.	License for development of architectural and urban planning documentation	Development of documentation on planning the development of the territory and parts of the territory of the Republic of Uzbekistan;	Ministry Repu
		development of documentation on planning the development of the territories of the regions of the Republic of Uzbekistan;	
		development of documentation on the development of territories of populated areas;	
		development of documentation on the development of territories of populated areas;	
		performance of engineering and technical (except engineering and geodetic) surveys for construction projects;	
		development of design and estimate documentation for facilities and complexes for housing and utility construction, including the design of their utility networks and systems;	
		development of design and estimate documentation for facilities and complexes for industrial construction, including the design of their utility networks and systems;	
		development of design and estimate documentation for facilities and complexes for water management construction, including the design of their engineering networks and systems;	
		development of design and estimate documentation for facilities and complexes for agricultural construction, including the design of their utility networks and systems;	
		design of energy construction and communications facilities and complexes, including design of their engineering networks and systems;	
		design of transport and road construction facilities and complexes, including design of their engineering networks and systems;	
		design of main utility networks (except for main gas pipelines, oil pipelines and oil products);	
		development of design and estimate documentation for the construction, reconstruction and repair of public roads;	
		documentation for the restoration of architectural monuments;	
		design of the section "Foundations and foundations of objects";	
		design of the section "Metal object structures";	
		design of the section "Structures of reinforced concrete objects";	
		design of special objects and structures;	
		design and estimate documentation for major and current repairs of construction projects;	
		inspection of the technical condition of buildings and structures;	
		development of design and estimate documentation for strengthening buildings and structures;	
		development of anti-corrosion protection;	
		design of engineering networks and systems of buildings and structures;	
		preparation of competitive (tender) documentation for the purchase of goods, works and services in capital construction.	

32.	License for design, construction, operation and provision of telecommunication network services	Design of local, intercity and international telecommunication networks;	Ministry of the Rep
		construction of local, intercity and international telecommunications networks;	
		operation of local and long-distance telecommunications networks;	
		provision of local and long-distance telecommunications services;	
		operation of international telecommunications networks;	
		provision of international telecommunications network services;	
		design of mobile radiotelephone (cellular) communication networks;	
		construction of mobile radiotelephone (cellular) communication networks;	
		design of mobile radiotelephone (radiotelephone, trunk) networks, and satellite communications networks on the territory of the republic;	
		construction of mobile radiotelephone (radiotelephone, trunk) networks, and satellite communications networks on the territory of the republic;	
		operation of mobile radiotelephone (radiotelephone, trunk) networks, and satellite communications on the territory of the republic;	
		provision of mobile radiotelephone (radiotelephone, trunk) network services, and satellite communications services on the territory of the republic;	
		operation and provision of services of mobile radiotelephone (cellular) communication networks;	
		design of data transmission networks;	
		construction of data transmission networks;	
		operation of data transmission networks;	
		provision of data transmission network services;	
		design of distribution (broadcast) networks for television and radio broadcasts;	
		construction of networks for the distribution (broadcasting) of television and radio broadcasts;	
		operation of networks for the distribution (broadcasting) of television and radio broadcasts;	
		provision of services for distribution networks (broadcasting) television and radio broadcasts.	
33.	License for stock exchange activities	Activities of the stock exchange and activities of the organizer of over-the-counter trading in securities;	Minist Repu
		currency exchange activities;	Central B
		activities of the commodity exchange.	Antimonc Repu
	License for the activities of private employment agencies for the	Activities of private employment agencies for the placement of persons seeking work outside the Republic of Uzbekistan.	

34.	employment of persons seeking work outside the Republic of Uzbekistan		Ministry Labor Rel
35.	License for activities related to the development, production, transportation, storage and sale of explosive and toxic substances, materials and products using them, as well as blasting equipment	Development of explosive and toxic substances, materials and products using them, as well as blasting agents;	State Co Safety
		production of explosives and toxic substances, materials and products using them, as well as blasting agents;	
		transportation of explosive and toxic substances, materials and products using them, as well as blasting agents;	
		storage of explosive and toxic substances, materials and products using them, as well as blasting agents;	
		sale of explosive and toxic substances, materials and products using them, as well as blasting agents.	
36.	License for activities in the field of circulation of ionizing radiation sources	Handling sources of ionizing radiation;	State Co Safety
		design of ionizing radiation sources;	
		construction of sources of ionizing radiation;	
		maintenance of ionizing radiation sources;	
		research and development work in the field of designing technological equipment and radiation protection equipment for sources of ionizing radiation;	
		research and development work in the field of manufacturing technological equipment and radiation protection equipment for sources of ionizing radiation;	
		extraction of sources of ionizing radiation;	
		production of ionizing radiation sources;	
		production of sources of ionizing radiation;	
		processing of ionizing radiation sources;	
		use of sources of ionizing radiation;	
		storage of sources of ionizing radiation;	
		maintenance of ionizing radiation sources;	
		transportation of sources of ionizing radiation;	
		neutralization of sources of ionizing radiation;	
		disposal of sources of ionizing radiation;	
		burial of sources of ionizing radiation.	
37.	License for activities in the field of nuclear energy use	Activities in the field of nuclear energy use.	State Co Safety
38.	License for activities in the field of development, production, repair and sale of weapons and ammunition for them, protective equipment, military equipment, spare parts, components and devices for them, if they are not used in	Development of weapons and ammunition for them, protective equipment, military equipment, spare parts, components and devices for them, if they are not used in other industries, as well as special materials and special equipment for their production;	

	other industries, as well as special materials and special equipment	production of weapons and ammunition for them, protective equipment, military equipment, spare parts, components and devices for them, if they are not used in other industries, as well as special materials and special equipment for their production;	Agency for the Mini Repu
		repair of weapons and ammunition for them, protective equipment, military equipment, spare parts, components and devices for them, if they are not used in other industries, as well as special materials and special equipment for their production;	
		sale of weapons and ammunition for them, protective equipment, military equipment, spare parts, components and devices for them, if they are not used in other industries, as well as special materials and special equipment for their production.	
39.	License for activities related to the liquidation (destruction, utilization, burial) and processing of released military-technical assets	Liquidation (destruction, disposal, burial) of released military-technical assets;	Agency for the Mini Repu
		processing of released military-technical resources.	
40.	License for the production, repair and sale of civilian and service weapons and ammunition for them	Production of civilian and service weapons and ammunition for them;	Ministry of the Mini Repu
		repair of civilian and service weapons;	
		sale of civilian and service weapons and ammunition for them.	
41.	License for the activities of organizations using space technologies	Research and development work, design and engineering and technological developments, production and testing of experimental, pilot and commercial samples of space technology;	Agency for Technological Ministe
		provision of space services to end consumers.	
42.	License for activities related to the development, production and sale of cryptographic information protection tools	Development of means of cryptographic information protection;	State Security Repu
		production of cryptographic information protection tools;	
		implementation of cryptographic information protection tools.	
43.	License for the activity of a payment system operator	Activities of the payment system operator.	Central Bank
44.	License for the activities of payment organizations	Activities of payment organizations.	Central Bank
45.	License for the activities of religious educational institutions	Activities of religious educational institutions.	Committee of the Repu
46.	License for bookmaking activities	Bookmaking activities.	Ministry of the Repu
47.	License for professional activity in the securities market	Investment intermediary activities;	Ministry of the Repu
		activities of a trust manager of investment assets.	
48.	License for activities related to the extraction, processing and sale of oil, gas (including compressed natural and liquefied hydrocarbon) and gas condensate	Extraction of oil, gas and gas condensate;	Inspection of Oil Production Ministry of the Repu
		processing of oil, gas and gas condensate;	
		sales of oil, gas and gas condensate.	
	License for activities related to the design	Design of main gas pipelines;	

49.	related to the design, construction, operation and repair of main gas pipelines, oil pipelines and oil product pipelines	design of oil pipelines;	Inspection Oil Production Ministry of
		design of oil pipelines;	
		construction of main gas pipelines;	
		construction of oil pipelines;	
		construction of oil product pipelines;	
		operation of main gas pipelines;	
		operation of oil pipelines;	
		operation of oil product pipelines;	
		repair of main gas pipelines;	
		repair of oil pipelines;	
		repair of oil pipelines.	
50.	License for the implementation of activities in the wholesale and retail trade of mineral fertilizers and chemicals used for plant protection	Wholesale trade of mineral fertilizers and chemicals used for plant protection	Agency for Protection Agriculture
		Retail trade of mineral fertilizers and chemicals used for plant protection	
51.	License for the activity of organizing and conducting Umrah events	Activities related to the provision of services for the organization and holding of Umrah events.	Committee the Reg
52.	License for the implementation of activities for the production of electrical energy	Production of electrical energy by means of hydroelectric power plants, including the operation of pumped storage systems;	Agency Regulation the Reg
		activities related to the production of electrical energy by means of thermal power plants or thermal power centers;	
		activity of producing electric energy from wind energy;	
		activity of producing electrical energy from solar energy;	
		activity of producing electrical energy through the processing of waste or biogas;	
		activity on production of electric energy from hydrogen;	
		the activity of producing electrical energy by means of a nuclear power plant;	
53.	License for the implementation of activities for the transmission of electrical energy	Activities related to the transmission of electrical energy.	Agency Regulation the Reg
54.	License for the implementation of activities in the distribution of electrical energy	Activities related to the distribution of electrical energy.	Agency Regulation the Reg
55.	License for the implementation of activities for the storage of electrical energy	The activity of storing electrical energy using compressed air;	Agency Regulation the Reg
		the activity of storing electrical energy using the force of gravity;	
		the activity of storing electrical energy in a battery;	

		the activity of storing electrical energy by other means.	
56.	License for carrying out activities in the field of electricity supply	Electricity supply activities.	Agency Regulation the Rej
57.	License for the operation of a central purchasing agent	Activities of the central purchasing agent.	Agency Regulation the Rej
58.	License for the operation of an electric power market operator	Activities of the electricity market operator.	Agency Regulation the Rej
59.	License for the implementation of activities in the field of trade in electric energy	Electric energy trading activities;	Agency Regulation the Rej
		Activities related to the export and import of electrical energy.

proce

Types of activities (actions) for which it is necessary to obtain permitti

See previous edition.

No.	Name of the permit document (procedure)	Activities (actions) for which a permit document is required	Authoriz lice
1.	Permission for the transportation of heavy and oversized cargo, with the exception of low- and medium-level radioactive waste, by road transport	Transportation of heavy and oversized cargo, with the exception of low- and medium-level radioactive waste, by road transport.	Minist Repi
2.	Certificate of admission of a motor vehicle to the transportation of dangerous goods	Transportation of dangerous goods by road.	Ministry (Repi
3.	Permission for conversion of motor vehicles	Making changes to the design elements and components of a motor vehicle using units and assemblies of other models and modifications, their spare parts and components.	Ministry (Repi
4.	Permission for rolling stock to enter public railways	Entry of rolling stock onto public railway tracks.	Minist Republ transport and t
5.	Coordination of the project for the construction and reconstruction of railway access roads, as well as devices intended for loading, unloading and cleaning of wagons and containers	Construction and reconstruction of railway sidings, as well as devices intended for loading, unloading and cleaning of wagons and containers.	Minist Repi
6.	Certificate confirming the right to regularly transport passengers by road	Transportation of passengers on regular city, suburban, intercity and international routes	Minist Repi

7.	Permission to carry out activities that may pose a threat to flight safety	Design, construction, expansion, reconstruction and technical re-equipment: buildings, structures, and objects that lead to a mass gathering of people, birds, and wild animals (rodents), located within a radius of 46 km from the airfield control point; radio communication lines and power lines (including high-voltage lines), other objects of radio and electromagnetic radiation, as well as lighting facilities located within a radius of 46 km from the airfield control point; explosive objects located within a radius of 15 km from the airfield control point; flare devices for emergency combustion of discharged gases, regardless of their location; industrial and other enterprises and structures, objects that impair flight visibility and the condition of airfields located within a radius of 46 km from the airfield control point; objects with an absolute height of 50 m or more, regardless of their location.	Civil Aviation Ministry of the Republic of Uzbekistan
8.	Conclusion on the admission to operation of an unmanned aerial vehicle in civil aviation	Use of unmanned aerial vehicles in the airspace of the Republic of Uzbekistan.	Civil Aviation Ministry of the Republic of Uzbekistan
9.	Operator's Certificate	Carrying out air transportation or aviation work.	Civil Aviation Ministry of the Republic of Uzbekistan
10.	Civil Aircraft Registration Certificate	Presentation upon receipt of a certificate of airworthiness for a civil aircraft.	Civil Aviation Ministry of the Republic of Uzbekistan
11.	Certificate of airworthiness of civil aircraft	Operation of civil aircraft in accordance with the requirements of the standards and recommended practices of the International Civil Aviation Organization (ICAO).	Civil Aviation Ministry of the Republic of Uzbekistan
12.	Noise Certificate for Civil Aircraft	Operation of civil aircraft in accordance with the requirements of the standards and recommended practices of the International Civil Aviation Organization (ICAO).	Civil Aviation Ministry of the Republic of Uzbekistan
13.	Certificate for radio equipment of civil aircraft	Operation of civil aircraft in accordance with the requirements of the standards and recommended practices of the International Civil Aviation Organization (ICAO).	Civil Aviation Ministry of the Republic of Uzbekistan
14.	Aircraft Maintenance Organization Certificate	Carrying out technical maintenance of aircraft.	Civil Aviation Ministry of the Republic of Uzbekistan

15.	Veterinary and sanitary conclusion on the compliance of the activities of a specialized slaughter enterprise and entity for the production, storage and sale of products and raw materials of animal origin with veterinary, veterinary and sanitary rules and regulations	Slaughter of cattle at specialized slaughterhouses, production, storage and sale of products and raw materials of animal origin.	Comm Livestoc Republ Depart Livest Tashk
16.	Registration card of a cash register machine with fiscal memory	The use of a cash register machine with fiscal memory for the purpose of selling goods, performing work, and rendering services for cash.	State T Repu
17.	Permission for export, import and transit of goods controlled by the state veterinary service	Registration of accompanying veterinary documents for export (veterinary certificate) based on the veterinary requirement of the importing country, registration of accompanying veterinary documents for import (veterinary certificate) in the presence of a veterinary certificate and transit of goods controlled by the state veterinary service.	Comm Livestock Ministr Repu
18.	Veterinary certificate	Export and import of goods subject to supervision by the State Veterinary Service.	State Co and Live the Repu Departm Livestoc Regions
19.	Quarantine permit	Import of seeds, plants and plant products, and transit of cargo containing seeds, plants and plant products.	Agency f Protectio Agricul
20.	Phytosanitary certificate	Export of seeds, plants and items derived from plant life.	Agency f Protect Karakalp Quaranti of Re
21.	License for export and import of specific goods	Export and import of specific goods, the list of which is established by law.	Cabin Repu
22.	Permission to export items and products, the export of which is carried out by decisions of the President of the Republic and the Government	Export of items and products, the export of which is carried out in accordance with decisions of the President of the Republic and the Government.	Cabin Repu
23.	Examination and registration of import contracts	Import of goods (works, services).	State Un for Com Projects under the Devel Reduct
24.	Permission for import into the Republic of Uzbekistan and use of pyrotechnics for technical and special purposes (safety class III - V), with the	Import into the Republic of Uzbekistan and use of pyrotechnics for their use during public events by decision of the President of	Cabin Repu

	exception of the use of pyrotechnics for industrial purposes	the Republic of Uzbekistan or the Cabinet of Ministers of the Republic of Uzbekistan, with the exception of the use of pyrotechnics for industrial purposes.	
25.	Permission to export objects of export control	Removal of objects of export control.	Ministry of Foreign Relations
26.	Certificate for the right to export or temporarily export cultural property from the Republic of Uzbekistan	Export or temporary export of cultural property from the Republic of Uzbekistan.	Agency under the Ministry of Culture and Sports
27.	Certificate of approval of a motor vehicle for the transportation of goods under customs seals and stamps	Transportation of goods by vehicle under customs seals and stamps.	Offices of the Customs Committee of the Republic of Uzbekistan, Karakalpakstan
28.	Permission to use the International Road Cargo Carnet	Use of the International Cargo Carnet by Legal Entities and Individuals.	State Customs Service of the Republic of Uzbekistan
29.	Architectural planning assignment	Development of design and estimate documentation	Ministry of Architecture and Urban Planning of the Republic of Uzbekistan
30.	Coordination of design documentation	Submission of notification of the examination of design solutions for seismic resistance and fire safety of facilities and the commencement of construction and installation works.	Ministry of Emergency Situations of the Republic of Uzbekistan
31.	Coordination of changes to the appearance of a building or structure	Changing the appearance of a building or structure.	District Executive Committees
32.	Permission for repurposing and reconstruction of the facility	Implementation of re-profiling and reconstruction of a facility without changing the volume of engineering loads.	District Executive Committees
33.	Act of commissioning of buildings and structures, the construction (reconstruction) of which has been completed	Use of buildings and structures with completed construction (reconstruction).	District Executive Committees
34.	Conclusion of the state examination on the subject of fire safety and seismic resistance of the facility	Direction for notification of the commencement of construction and installation works.	State Fire Service of the Republic of Uzbekistan
35.	Coordination of projects for the construction, reconstruction and repair of highways, road structures, railway crossings, stations (filling stations, gas stations and gas stations for cars) located along highways and streets (gas stations, CNG filling stations and gas stations)	Approval of the project for the construction, reconstruction and repair of highways, road structures, railway crossings, stations (filling stations, gas stations and gas stations for cars) located along highways and streets (gas stations, CNG filling stations and gas stations).	Territorial Executive Committees, Main Directorate of the Ministry of Internal Affairs of the Republic of Uzbekistan
36.	Coordination of energy supply projects for consumer facilities with a capacity of over 20 kilowatts	Carrying out construction and installation works envisaged by the project for the energy supply of consumer facilities with a capacity of over 20 kilowatts.	Inspectorate for the supervision of power and energy supply of the Ministry of Energy of the Republic of Uzbekistan

37.	Conclusion on the compliance of established technological processes and the state of technological equipment with the requirements of regulatory documents in the field of technical regulation	Obtaining a license for activities related to the extraction, processing and sale of oil, gas and gas condensate, licenses for activities related to the design, construction, operation and repair of main gas pipelines, oil pipelines and oil product pipelines, sending notifications for the sale of petroleum products.	Territorial Inspector Use of under the the Re
38.	Conclusion on the compliance of filling stations with the requirements for the reception, storage, accounting and distribution of petroleum products	Reception, storage and distribution of petroleum products at filling stations.	Territorial Inspector Use of under the the Re
39.	Conclusion on the compliance of newly constructed, reconstructed or technically re-equipped gas-using equipment, gas pipelines and equipment on them, used at enterprises and technological oil and gas facilities (installations) consuming 100,000 cubic meters or more of natural gas per year, with energy efficiency indicators and on the use of alternative types of fuel	The use of newly constructed, reconstructed or technically re-equipped gas-consuming equipment, gas pipelines and equipment on them, used at enterprises and technological oil and gas facilities (installations) consuming 100,000 cubic meters or more of natural gas per year.	Territorial Inspector Use of under the the Re
40.	Preliminary permission to acquire bank shares	The acquisition, directly or indirectly, by individuals and legal entities or persons acting jointly, including non-residents, of a share in the authorized capital of a bank, which as a result of one or more transactions will amount to: 1) five percent or more, but not more than twenty percent; 2) twenty percent or more, but not more than fifty percent; 3) fifty percent or more	Central I
41.	Preliminary permission for banks to acquire their own shares	Acquisition of own shares by banks	Central I
42.	Permission for bank reorganization	Bank reorganization	Central I
43.	Permission for voluntary liquidation of a bank	Voluntary liquidation of a bank	Central I
44.	Permission for banks to open subsidiary banks and representative offices outside the Republic of Uzbekistan, create branches, participate in the capital of banks, including the creation of foreign banks	Opening of subsidiary banks and representative offices by banks outside the Republic of Uzbekistan, creation of branches, participation in the capital of banks, including the creation of foreign banks	Central I
45.	Permission for banks to export foreign and (or) national currency in cash outside the Republic of Uzbekistan	Export of foreign and (or) national currency cash by banks outside the Republic of Uzbekistan	Central I
46.			

	Permission for a bank to acquire shares in other banks	Acquisition of shares of another bank by a bank	Central I
47.	Permission for the bank to outsource certain types of services and operations	Transfer of certain types of services and operations by the bank to outsourcing	Central I
48.	Decision on inclusion of a mortgage refinancing organization in the register of mortgage refinancing organizations	Carrying out activities on refinancing mortgage loans	Central I
48 ¹	Decision on inclusion of a microfinance organization in the register of organizations operating as a microfinance organization	Implementation of activities of a microfinance organization	Central I
48 ²	Decision on inclusion of a payment organization in the register of organizations operating as a microfinance organization	Implementation of activities of a microfinance organization	Central I
48 ³	Preliminary (subsequent) permission to acquire a share in the authorized capital (authorized fund) of a non-bank credit institution	Acquisition, directly or indirectly, by individuals and legal entities, including those acting jointly with close relatives and related persons, as well as non-residents, of a share in the authorized capital (authorized fund) of a non-bank credit institution, which as a result of one or more transactions will amount to ten percent or more	Central I
		Receipt of ten or more percent of shares in the authorized capital (authorized fund) of a non-bank credit institution under circumstances beyond the control of the recipient	
49.	Permission for reorganization of the insurer	Reorganization of the insurer.	Agency Insura Minis Repi
50.	Coordination of the list of preventive measures financed from the insurer's preventive measures reserve	Implementation of preventive measures financed from the insurer's preventive measures reserve.	Agency Insura Minis Repi
51.	The decision to write off from the balance sheet of the subsoil user mineral reserves that have lost their industrial significance or have not been confirmed during subsequent geological exploration or development of the deposit	Write-off from the balance sheet of a subsoil user of mineral reserves that have lost their industrial significance or have not been confirmed during subsequent geological exploration or development of the deposit.	State Co Rese Commi Uzbek M
52.	Decision on approval of mineral reserves provided for in geological materials on subsoil	Obtaining permission to use subsoil areas.	State Co Rese Commi Uzbek M
53.	Decision on the advisability of assigning the right to use a subsoil plot (in whole or in part) to another person	Conclusion of the relevant assignment agreement and issuance by the authorized body of a license to the person in whose favor the right to use the subsoil plot is assigned (in whole or in part).	State Co of Uzbe Mineral Econor Pove Republic

			of Final Uzbekistan the Republic Ecology and Protection
54.	Permission for the right to use subsoil areas	Use of a subsoil plot for geological study; pilot industrial extraction of minerals; artisanal mining of precious metals; extraction of minerals; use of man-made mineral formations; construction and operation of underground structures not related to the extraction of minerals; formation of protected geological objects; collection of samples of gemstone raw materials, paleontological remains and other geological collection materials.	State Committee of Uzbekistan Mineral Resources Committee Uzbekistan Environment
55.	Conclusion of the state examination of design and estimate documentation for geological materials on subsoil	Conducting geological studies of mineral deposits.	State Committee of Uzbekistan Mineral Resources Committee
56.	Accounting for geological exploration work related to mineral extraction	Carrying out work on geological exploration of the subsoil related to the extraction of minerals by the owner of a permit for the right to use a subsoil site for the extraction of minerals.	State Committee of Uzbekistan Mineral Resources Committee
57.	Permission to drill water wells	Drilling water wells.	State Committee of Uzbekistan Mineral Resources Committee
58.	Mining allotment act	Use of subsoil areas on the basis of a permit.	Inspectorate and Geological State Committee of Uzbekistan Mineral Resources Committee
59.	Coordination of a special project for the liquidation and conservation of a mineral extraction enterprise or part thereof	Approval of a special project for the liquidation and conservation of a mineral extraction enterprise or part thereof.	Inspectorate and Geological State Committee of Uzbekistan Mineral Resources Committee
60.	Coordination of the mining development plan	Carrying out mining operations and development of mineral deposits, with the processing of mineral raw materials.	Inspectorate and Geological State Committee of Uzbekistan Mineral Resources Committee Safety
61.	Conclusion on approval and coordination of the transfer of mines (pits) from one category to another, as well as acts of transfer of oil and gas wells into operation, liquidation and conservation	Transfer of mines from one category to another, as well as the transfer of oil and gas wells into operation, liquidation and conservation.	State Committee Safety
62.	Mining permit	Conducting mining operations.	

			State Co Safet
63.	Permission to import or export ozone-depleting substances, as well as products containing ozone-depleting substances	Import or export of ozone-depleting substances, as well as products containing ozone-depleting substances.	State Cor of Uzbe Envir
64.	Permit for special water use or special water consumption	Special water use or special water consumption.	State Cor of Uzbe Envir Ministry the Republ Commi Uzbek M
65.	Wildlife Hunting Permit	Hunting for wild animals.	State Cor of Uzbe Envir
66.	Permission for the removal from the natural environment of rare and endangered wild animals listed in the Red Book of the Republic of Uzbekistan	Removal from the natural environment of rare and endangered wild animals listed in the Red Book of the Republic of Uzbekistan.	State Cor of Uzbe Envir Acadei Repu
67.	Permit for import and export of specimens of animal species and specimens of plant species included in appendices I, II and III of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES)	Import and export of specimens of animal species and specimens of plant species included in Appendices I, II and III of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES).	State Cor of Uzbe Envir
68.	Permit for import and export of wild animals, their parts, and waste products	Import and export of wild animals, their parts, and waste products.	State Cor of Uzbe Envir
69.	Certificate of registration of a nursery for keeping and breeding wild animals, as well as zoological collections	Keeping wild animals in a nursery, as well as zoological collections.	State Cor of Uzbe Envir
70.	Permission for haymaking and grazing on reserve lands outside the state forest fund	Haymaking and grazing on reserve lands outside the state forest fund.	Territori Commi Uzbek Environr Republ regions z
71.	Permission to cut down trees and shrubs not included in the State Forest Fund	Cutting down trees and shrubs that are not part of the State Forest Fund.	State Cor of Uzbe Envir
72.	Permit for special use of flora objects	Special use of flora objects.	State Cor of Uzbe Environr Commi Uzb
73.	Permission for removal from the natural environment of rare and endangered plant species listed in the Red Book of the Republic of Uzbekistan	Removal from the natural environment of rare and endangered plant species listed in the Red Book of the Republic of	State Cor of Uzbe Envir

		Uzbekistan.
